

# Sentry Slays Jap Alien On Hawaii Beach

---

HONOLULU, July 28.—Army authorities said yesterday that Ghchiro Uyeno, 52 years old, a Japanese alien, was shot and killed by a sentry Saturday night when he failed to halt when challenged and attempted to run from a beach, where he had been standing.

The sentry, on patrol duty, fired seven shots, six of which hit the Japanese.

Authorities pointed out that Uyeno violated three military regulations: First, the curfew against being abroad during a blackout; second, being in a forbidden area adjacent to a military installation at Bellows Field, and, third, failure to obey the sentry when properly challenged. They added that an investigation was under way.
