## 14 Seattleites Returning On

Fourteen residents of Seattle are among the 1,451 men, women and children aboard the diplomatic exchange ship Gripsholm, which is returning evacuees from the Western-Pacific area, the State Department announced today. The ship is expected to arrive at New York next Tuesday, according to the Associated Press.

Captain Ginder has been on extensive duty over Alaska and is familiar with the conditions under which the men up there now are fighting. He's been a flying man in the Navy for twenty-two years. Less than seven years have been spent on shore duty since he was graduated in 1916 from the Naval Air Station at Anasociated Press.

As on the previous trip of the Gripsholm when she brought a full list of American and other nationals from Axis countries in Europe no visitors will be allowed on the pier until the examination of passengers has been completed. On the earlier occasion the process con-sumed several days, and many homecomers did not set foot on United States soil for a week after the vessel reached New York.
