WASHINGTON, March 8 .-- (AP)-The critical manpower problem was attacked on a broad front today as reliable reports made clear that administration leaders still hope to meet farm-labor needs without cutting down on the armed

Over the week-end:

1. Selective Service announced a four-point program for draft deferment of essential farm workers and men over 38 years old were ordered reclassified in a move to get them into farm work or possibly them into farm work or possibly

into the armed services.

2. A special committee headed by Economic Stabilization Director James F. Byrnes was disclosed to be preparing for President Roose-velt recommendations covering a program aimed at meeting manpower problems generally.

#### 10,800,000 in Services

It was stated on high authority that the White House committee—which includes Bernard M. Baruch, Harry Hopkins, Adm. William D. Leahy and Justice Samuel I. Rosenman of New York — has reached agreement on the principle that whatever is done, there should be no reduction in 1943 military goals calling for a total of 10,800,-000 men.

The new order to induce men over 38 to take up farming pro-vides that any man over 38 who is engaged in farm work by May 1 shall be reclassified into the farmdeferment classes, 2-C if single and 3-C if married, if he meets the other farm-deferment qualifications. Other fnen over 38 are to be put into the regular draft classifications "as soon as possible after May 1."

They will, under yesterday's order, however, be given special "H" designations. Thus some will be put in 1-A (H), 2-B (H), 3-A (H) and similar classes.

Four other new Selective Servthe week-end designed to keep agricultural workers on the farms.

They provide:

1. When a man is granted deferment for farm work, local boards have "no further discretion" and must keep him deferred. If this makes the local board unable to son delivery trucks. meet its quota for the armed services, the military call "should be left unfilled."

perience now in other work is to get farmer deferment if he returns to farming before he is notified to appear for induction.
