### FRENCH GOVERNMENT TO SUPPRESS WINE FRAUDS

Provision Will Be Made to Have Grape Growers Engage in the Raising of Other Crops.

PARIS, Wednesday, June 12.—The cabinet council especially summoned yesterday morning to discuss the situation in the south of France did not find much difficulty in deciding on the ministerial statement to be made on the subject in the chamber. The state-

ment was made by Finance Minister Raymond Poincaré, who announced the government's determination to energetically suppress the wine frauds. In so doing he made a cardinal and they would at once donate \$1,000,000 to the church. The Pope, according to the correspondent, is the most indignant at the suggestion of such a bargain.

REPORTS DESTRUCTION OF JAPANESE PROPERTY  
TOKYO, Wednesday, June 12.—The Associated Press, Washington reports an attack upon a Japanese horri-culture at Berkeley, Cal., resulting in the destruction of a green house and other property. This has fanned the flame of indignation already strong here and has served to confirm the popular belief that violence of the kind is not accidental but the result of a deeply rooted feeling against the Japanese.

ALLEGED ATTACK TRIVIAL AFFAIR  
SAN FRANCISCO, Wednesday, June 12.—Referring to the alleged attack on a Japanese horticulturist at Berkeley, Thomas G. Walker, representing the Japanese Association of America, says that it was a trivial affair. Some boys had thrown a few stones at a green-house belonging to a Japanese, but the damage was slight and the association would take no action in regard to the incident, leaving the local authorities to deal with the offenders.

PARIS, Wednesday, June 12.—The Matin publishes a dispatch from Rome saying that two wealthy American Catholics recently informed Pope Pius that Catholicism would make great strides in America if Archbishop Ireland were made a cardinal, and they would at once donate \$1,000,000 to the church. The Pope, according to the correspondent, is the most indignant at the suggestion of such a bargain.

## MIDDIES DIED LIKE RATS IN TRAP

Rear-Admiral Evans Reports Launch Which Mysteriously Disappeared Monday Night Sank With All on Board.

Clue Found Indicates Craft Was Rammed in Darkness by Tug and Went to Bottom Instantly in Stormy Sea.

By Associated Press, Special by Leased Wire.

WASHINGTON, Wednesday, June 12.—The loss Monday night of a launch which carried six bright young midshipmen, fresh from the Academy at Annapolis, and a boatman and four enlisted men, attached to the big battleship Minnesota, eleven men altogether, was reported to the navy department in a dispatch yesterday from Rear-Admiral Evans, commanding the fleet at Hampton Roads, Va.

A ditty-box belonging to the fireman of the Minnesota's missing launch has been picked up near Los Angeles and I am forced to conclude that launch with all on board is lost. I have ordered board of inquiry.

The missing midshipmen are: Frank P. Holcomb, Delaware; Henry C. Murray, Jr., of Ohio; Philip E. Colburn, Wisconsin; Walter C. Ulrich, Wisconsin; W. E. Stevenson, North Carolina; Herbert E. Selim, Wisconsin.

The others missing are: E. H. Dodson, seaman; Frank E. Plumber, ordinary seaman; G. W. Westphal, fireman, first class; Frank E. Plumber's mother, Eada Kitchin, lives at Mabton, Va.

The launch was last seen returning to the battleship from Exposition pier. The missing midshipmen had attended the army and navy ball at the James-town Exposition Monday night.

It was reported today that the disaster resulted from the launch being run down by a tug and coal barge, which the tug was towing.

The identity of the tug and barge are as yet unknown. It was said that the tug was struck, but finding no sign of life in the water, resumed its course and the launch was never seen again. It is presumed that the launch sank immediately in the darkness of the stormy evening, the launch being caught in their canvas covers, craft with no possible way of escape and carried to the bottom, drowning like rats in a trap.

It was raining and the choppy sea sending such whitecaps that it became necessary for the launch to have the canvas covering but-omitted which was the cause of the disaster. It is not yet positively known whether the tug and barge were outwards or inwards bound, but the crews knew what they had struck.

## AMERICAN PEOPLE ARE WARNED

British Ambassador Says Eternal Vigilance Is Price of Liberty and of Pure and Efficient Government.

By Associated Press, Special by Leased Wire.

URBANA, Ill., Wednesday, June 12.—At the commencement exercises at the University of Illinois here today, one of the attractions was the British ambassador, James Bryce, who delivered an address.

In his address, Ambassador Bryce considered the relation of history to politics and the value of the United States citizens and statesmen, saying there were two general conclusions which he drew from his study of history.

"One is," said he, "that no one who sees the faults that belong to popular government should be discouraged. It is the duty of every citizen to see that the faults of democracy are not made permanent. It is the duty of every citizen to see that the faults of democracy are not made permanent. It is the duty of every citizen to see that the faults of democracy are not made permanent."

"The other conclusion is that although the best institutions and the best administrative systems are worth planning for and striving for, although they make an immense difference to the welfare of the country, there is another thing even more important. That thing is the character of the people as a whole. Leaders, honest, capable, courageous men, are necessary in any form of government. The people must give them out of honor and not just as a matter of expediency. If their honesty is proved, its confidence in the government must give them out of honor and not just as a matter of expediency. If their honesty is proved, its confidence in the government must give them out of honor and not just as a matter of expediency."

"Patriots Are Warned." "It was said by them of old that eternal vigilance is the price of freedom. It is the price of other things also. It is the price of pure government and efficient government. No citizen in a free country can escape the responsibility of the conduct of his government. He ought to respect the judgment of those who are more wise than himself. He must avoid the error of those cranks who call them, who set the particular question in which they are most interested above the general lines of a sound national policy. But the history of free governments shows that when things go wrong, it is not so often from errors of judgment on the part of the people as it is from an excess of party spirit which has led them to follow blindly an unscrupulous man or from a neglect of the negligence which has enabled unscrupulous and selfish men to pursue their own advantage at the expense of the public good."

"The most successful of all democracies that of Switzerland, has been that in which the whole people have not constantly exercised themselves and the result has been to produce in the mind of the Swiss people an intelligent comprehension of public life which it must be hard to equal anywhere."

## JAPAN IN FAVOR OF CONFISCATION

Question of Right of Conqueror to Annex Subjugated Territory. With All That Is on It Is to Be Raised at The Hague.

Nipponese Proposal Would Deprive American Investors of Large Properties in Manchuria and Korea.

By Associated Press, Special by Leased Wire.

NEW YORK, Wednesday, June 12.—A delegate to The Hague conference, said to be the representative of a great power, as declaring that Japan is to hurl a bomb into the conference by bringing forward the question of the right of a conqueror to annex territory subjugated with all that is upon it.

"This will be warmly denied by both Russia and the United States," The Herald's informant is quoted as saying. The Russians have large private properties in Manchuria and the United States considerable mining and other interests in Korea. Of such interests Japan proposes to deprive them. At all events that is to be the object of her proposition. The United States proposes to bring a motion diametrically opposed to that of Japan and this, in view of the present existing friction between Japan and America, it is easy to see, contains all the makings of a first class international row.

## JAPANESE DROP EFFORT TO BECOME CITIZENS

LOS ANGELES, Wednesday, June 12.—Japanese immigrants who threatened a walk-out against the Japanese proceedings against the entry clerk to compel him to issue first papers to Japanese applicants for citizenship in the United States have abandoned their purpose and announced yesterday that they will accept the Japanese ambassador in the consulate of the department of immigration that subjects of the Emperor of Japan must not be granted the privileges of citizenship.

## AOKI POSTPONES VISIT TO COAST

WASHINGTON, Wednesday, June 12.—Counselor Aoki, for the Japanese embassy, authorized the statement that Secretary Root positively declines to make any statement respecting the Japanese situation. It may be said, however, that the secretary's refusal was based solely on his unwillingness to add to the rumors official notice and not upon any belief on his part that there is the least danger of war.

Monarchs See Courtier Die.
