Ads are accepted by telephone from Times Subscribers in Seattle and vicinity, or from those listed in the Seattle Telephone Directory. A sharp drop in the nation's wheat production from the high 1942 levels was predicted today by the Agriculture Department as an aftermath of unfavorable weather and retarded work on farms experiencing labor shortages.

The winter crop was forecast at 588 551 000 bushels, considered average.

Crop Forecast

Int. Paper Output, Profits Take Dip

NEW YORK, April 10.—(P)—The International Paper Company, whose mills have the world's greatest pulp and paper-making capacity, reports a consolidated net profit of 1942 of \$7,814,319 against \$56.253,761_in 1941.

The 1942 net, however, was calculated after transfer to reserves of \$2,346,658 in profits of foreign subsidiaries, normally reserved as part of net income. Also NEW YORK, April 10.—(A)—The International Paper Company, whose mills have the world's

foreign subsidiaries, normally reported as part of net income. Also reflected in the decline were increased costs. The 1942 net included \$1,919,504 in United States postwar excess profits tax credit. Curtailment of both production and use of paper were reflected in a decline of 1.4 per cent in total output to 2,614,944 tons of paper, paperboard and pulp against 1941's 2,653,800 tons.
