

## DON'T FREE JAPS, GRANGERS ASK

YAKIMA, June 18.—(P)—The Washington State Grange, in convention here, resolved yesterday to urge the proper government authorities to keep Japanese in relocation centers for the duration of the war.

Members reelected ten officers, including State Master Henry P. Carstensen of Almira, and named four new officers.

Others reelected were Henry Roberts, Waitsburg, overseer; Ira Shea, Seattle, lecturer; Raymen Paulson, Plaza, steward; Mrs. Beryl McCauley, Spangle, Pomona; Mrs. Agnes Johnson, Seattle; Flora; Mrs. Olive Rutledge, Little Rock, chaplain; Fred Nelson, Seattle, treasurer; K. T. Knutson, East Stanwood, secretary, and Elmer J. Anderson, Lynden, gatekeeper.

New officers were Ralph Hedges, Chelan County, assistant steward; Mrs. Helen Treacy, Chelan County, Ceres; Mrs. Maybelle King, Pullman, lady assistant steward, and Mrs. Rita Carstensen, Lamona, home economics chairman.

Fred J. Chamberlain, Puyallup, by unanimous vote was accorded a life membership on the executive committee. Heve H. Meyer of Vancouver was elected to the executive committee for a three-year term.

## Bonneville Seeks to Control Idaho Waters, Says Taylor

SANDPOINT, Idaho, June 18.—(P)—E. T. Taylor, master of the Idaho State Grange, charged last night that the Bonneville administration plan for building a low dam at Albion Falls on the Clark Fork River was "not the whole story" but the first step in a plan to get control of the waters of Idaho.

Addressing a mass meeting in the high school, scene today of a hearing on the Albion project by the Seattle office of the United States Army Engineers, Taylor said his organization contended the essential goal was a water level of 2,150 feet, or 81 feet higher than the engineers have proposed for the low dam.

## Street Cleaners In Denver Quit Work

DENVER, June 18.—(P)—Hundreds of Denver street-cleaning and maintenance employees failed to report for work today and George Cranmer, commissioner of city parks and improvements, said it resulted "from agitation for higher wages."

"I wouldn't call it a strike," said Cranmer, "they just didn't show up for work . . . Apparently they are disgruntled because the police and firemen were voted a pay raise in the city election and earlier this week the City Council raised the pay of the safety commissioner."

The surface of the moon contains about 14,657,000 square miles.

## Yakima County Marine Tells Of Guadalcanal

HENRY C. HALE, JR.

Took part in first Solomons action

SAN FRANCISCO, June 18.—(P)—A Toppenish, Yakima County, Wash., marine, Pfc. Henry C. Hale, Jr., who was partly paralyzed by flying shrapnel on Guadalcanal, told from a hospital bed today of his outfit's landing with the first American forces in the Solomons last summer.

The freckle-faced youth, who was 19 years old Easter Sunday, has been discharged honorably and is in a near-by naval hospital. He enlisted in December, 1941, when he was 17.

"We weren't a raider outfit when we attacked in the Solomons," he said, "but our assignments were similar to those of the raider outfit. In the initial landing my unit attacked Florida Island. We met only slight resistance and soon cleaned the Japs out. We stayed only one day and then went on to Tulagi. During the month I was fighting, we made many raids on nearby islands and two large raids on Guadalcanal."

Hale, the lower part of whose body is paralyzed, said the first raid on Guadalcanal lasted ten days. He was wounded during the second one.

"I was injured in the second raid. We ran across a large concentration of Japs, who turned on us with knee mortars. A shell struck close behind me, sending shrapnel into my back, causing complete paralysis of my body from the chest down."

Private Hale is the son of Mr. and Mrs. Henry C. Hale of Toppenish. He has two brothers in the Army, Michael and Clarence, the former overseas.

## Woman, Hurt While Skating, Awarded \$750

A federal jury in United States District Judge John C. Bowen's court late yesterday awarded Mrs. Virginia Powell of Des Moines \$750 for injuries she suffered while skating at Sun Valley, Idaho, a resort operated by the Union Pacific Railway, the defendant.

Mrs. Powell and her husband, Clyde, had sued the railroad for \$6,675.69.

The Powells charged that the railway was negligent in the manner in which the skating rink was conducted, and the railway contended that Mrs. Powell caused her accident. She fell after a collision with Betty Abbott, professional skater and dancer from San Francisco, who was one of the witnesses for the railway in the trial.

## Furs Shipped North For Souvenir Trade

NEW YORK, June 18.—(P)—Wives, sweethearts, mothers and sisters of those American troops building the Alaska military highway:

Brig. Gen. Clarence L. Sturdevant, assistant chief of United States Army Engineers, lets you in on this military secret:

The supply of Canadian furs was so quickly exhausted by the boys' demands that it was necessary to send back to the States for additional pelts to be reshipped home as gifts.

## ALCOA OPENS BIG ALUMINUM PLANT

CHICAGO, June 18.—(P)—The Chicago works of the Aluminum Company of America, described by the operators as the world's second largest aluminum sheet mill, went into operation today.

Ground for the Chicago works was broken only 13 months ago. One building has 55 acres under one roof. The plant was built by the company for the Defense Plant Corporation and Alcoa is operating it on lease.

## Convicts Hunted In Olympia Area

OLYMPIA, June 18.—Patrolmen and sheriff's officers today scoured the wooded countryside south of here for two penitentiary convicts who escaped from the Onalaska prison wood-cutting camp.

They were Russell W. Cawfield, 30 years old, serving 5 to 15 years for grand larceny, from King County, and Wesley Baur, 26, serving 9 to 20 years for robbery. Both men were reported missing from the camp yesterday.
