

### COUNCIL TO SEEK WATERSHED GIFT

Assured support by a five-member City Council majority, resolutions asking Washington's congressional delegation to initiate legislation that will enable the federal government to make the city a gift of its 25,880 acres of land and timber in the Cedar River watershed were put before the Council this afternoon.

Combined with the request was affirmation of the Council plan to appoint a commission of three experts to study the watershed and recommend policies for its future operation.

**Approval Certain**

The resolutions were introduced by Councilman Frank McCaffrey, John E. Carroll, M. B. (Mike) Mitchell and Frank J. Laube and Councilwoman Mrs. F. F. Powell, assuring their approval over any objections by the four-member minority.

One resolution sets out the policy that the city desires eventually to own and control all land and timber in its 91,400-acre watershed, much of which is now held by the federal government and private timber companies.

Aid of the state's congressional delegation will be asked in a letter to be written by Mayor William F. Devin and Council President Carroll.

**Resolution Is Redrafted**

Dropped from the new resolutions was an earlier majority proposal that the government aid in effecting a transfer of Northern Pacific Railroad timber in the watershed to the city.

Also apparently assured of at least a five-vote approval was an ordinance appropriating up to \$12,000 to hire the watershed study commission. Named to the commission were Dr. Abel Wolman of Johns Hopkins University, Dr. Bror L. Grondal of the University of Washington, and Carl E. Green, Portland, Or., sanitary engineer.

The new measures were referred to the Council's committee of the whole for study.

**Man Depositing Money Slain**

LOS ANGELES, Nov. 15.—(AP)—William Lederer, 63 years old, proprietor of the Roseland Roof Dance Hall, was fatally shot through the back as he was entering a downtown safety deposit vault with approximately \$8,000 in cash and checks early yesterday. Police believe two men seen fleeing from the scene were hold-up men.

**Robeson Hits Jew Baiting**

BOSTON, Nov. 15.—(AP)—Paul Robeson, noted Negro singer and actor, has demanded a full investigation of the recent purported anti-Semitic incidents in Boston. "As a son of a slave, reared on Abolitionist traditions," he said, "the recent attacks on Jews in Boston to me are terrifying."

**Girl Dies From Fall**

LONGVIEW, Nov. 15.—(AP)—Ida Lue Mathis, 14 years old, died yesterday as result of a fall while boating with her parents and friends near Walker Island on the Columbia River near here. She was the daughter of Mr. and Mrs. G. H. Mathis, Toledo.

### FESTIVAL BEAUTIES

Ruling the Autumn Festival at Washington State College, Pullman, last week-end were the three beauties shown here. Left to right—Patricia Wright of Spokane, Rae Appleford, Asotin, and Patricia Frayne, Redwood City, Calif. The celebration drew soldiers, civilians and co-eds, and included a dance which filled two college gymnasiums.

### COAL OPERATORS MUST SIGN PACT

—Says Ickes

WASHINGTON, Nov. 15.—(AP)—Interior Secretary Ickes told coal operators today to get busy and come to terms with the United Mine Workers if they want their mines back.

Ickes said the government, which now is running the mines under a federal wage agreement concluded between Ickes and John L. Lewis, mine-union boss, would immediately restore the properties to their owners if a contract were signed and another work-stoppage "were thus rendered improbable."

"I doubt, however, that I would be permitted by this coal-hungry nation to terminate government possession when many citizens feel that this would again result in the probability that, once the mines got back into the hands of their owners, a widespread stoppage would occur again," Ickes told 29 producers gathered here.

The secretary branded as "silly" rumors he favors nationalization of the coal industry, and announced he had already started the process of returning to the owners those mines at which no stoppages had occurred during the last work suspension.

### Man, Seeking Cheap Whiskey, Is Robbed

TACOMA, Nov. 15.—(AP)—Frank Umbriaco reported to police that he had been robbed of \$900 at 1 o'clock this morning when he visited a hotel room in response to a call from a man who offered to sell whiskey cheap.

Umbriaco said that when he entered the room an armed man, whom he believed to be a former bartender who once worked for him, held him up, saying: "I just bumped a guy off in Portland and I'm desperate!"

Umbriaco is at liberty on \$1,500 bail on charges resulting from earlier seizure of liquor believed to have been stolen from the Pasco and Olympia liquor stores.

### BLOFF TESTIMONY HIT IN FILM TRIAL

NEW YORK, Nov. 15.—(AP)—Defense counsel hammered today at testimony of William (Willie) Bloff, convicted labor leader, in the trial of eight men on charges of conspiring to extort more than \$1,000,000 from the motion-picture industry.

Otto Christensen, attorney for John Roselli, one of the accused, cross-examined Harry Cohn, president of Columbia Pictures, on earlier Bloff testimony as a government witness concerning contribution of \$25,000 to prevent a strike by members of the International Alliance of Theatrical Stage Employees.

**Conversation Denied**

In that testimony Bloff had said he asked Cohn if he had received a telephone call from Leo Spitz, then attorney for and now president of Radio-Keith Orpheum Corporation, concerning that contribution, sought, Bloff had testified, under threat of closing every theater in the country. Bloff testified Cohn told him he was not "going to pay that kind of money."

"Did you have a conversation with Bloff?" the attorney asked. "Never," Cohn replied.

Boris Kostelanetz, special assistant United States attorney, prosecuting the case, called Frank C. Olsen, executive secretary of Chicago Local 2, I. A. T. S. E., to the stand. Olsen testified that on several occasions he had seen the defendants, with the exception of Roselli and Louis Kaufman, former I. A. T. S. E. business agent in Newark, N. J., in the company of Bloff and his personal boss, George E. Browne, ex-president of the I. A. T. S. E., who was convicted with Bloff of extortion.

**Meeting in Hotel Told**

Olsen testified the meetings were in Bloff's hotel room. He said that when he arrived at his own union office Bloff would call him often and ask him to come to the hotel "for coffee." On such occasions, he said, he met the defendants he identified in the courtroom.

Olsen said that at the 1934 I. A. T. S. E. convention in Louisville, Ky., Browne had directed him to take care of expenses of some of the present defendants.

Under cross-examination the witness said it was nothing unusual for him to do personal favors for Browne, whom he supported for the presidency of the I. A. T. S. E. Other defendants are Louis Campagna, Paul de Lucia, Phil d'Andrea, Francis Maritote, Ralph Pierce and Charles Cloe, all of whom the government contended were members of a Chicago syndicate which succeeded Al Capone in control of that city's underworld.

### Solon Assails W. R. A. Choice Of Tule Lake Site

RED BLUFF, Calif., Nov. 15.—(AP)—Representative Engle, Democrat, California, in a report to the Dies committee, said today the Tule Lake Segregation Center for disloyal Japanese "was established without regard for considerations of military security for California or the security of the people."

In asking the Dies committee to make its own formal investigation of the center, the congressman declared "the War Relocation Authority had absolutely no control over the internal security of the camp, and the white people in the camp were at the mercy of the Japanese."

The center was taken over by the Army November 4 after two demonstrations, one of which led to the virtual imprisonment of all Caucasian help while demands were presented and the other of which resulted in the beating of an internal security guard.

Engle said the bringing of all disloyalists to Tule Lake was "in violation of the general order of Gen. (John L.) De Witt (former commanding general of the Western Defense Command) establishing the zones from which the Japanese were to be prevented from entering."

Reliterating testimony already brought out at the State Senate hearings at Tule Lake, last week, Engle added that houses of prostitution operated openly; that the W. R. A. permitted possession of narcotics and liquor; that 3,000 bills of the W. R. A. were in arrears, and that "top officials of the W. R. A. have deliberately falsified to the public as to the condition" surrounding troubles at the center.

### Soldier Accused Of Assault on Woman

TACOMA, Nov. 15.—(AP)—Rape of a 21-year-old Tacoma mother, wife of a soldier, as she lay with her two baby sons in bed, was charged against Archie Lewis, 22-year-old Negro soldier, by Tacoma police today.

Pole Lieut. P. J. Gregg reported that charges of burglary and rape were laid against Lewis after the young woman identified him in a police line-up this morning as her attacker.

According to Gregg, the young woman was victimized early Saturday morning by an intruder, who, the woman said, had held a long-bladed knife at her throat and said: "Keep quiet, for I'll kill you if you holler."

Her two baby sons, one 5 months old and the other 16 months, shared the bed with her. When the smaller baby cried, said the mother, the intruder ordered her: "Shut that baby up—or I will."

The woman's husband is a patient in the Fort Lewis Hospital.

### V-12 Students Full of Pep, Says Officer

RUFUS A. HARMONY  
He has his hands full

Although he'd rather be on sea duty, Chief Warrant Officer Rufus A. Harmony, on the teaching staff of the Naval Reserve Officers' Training Corps program on the University of Washington campus, explained with a twinkle in his eye today that "these youngsters can think up a lot of things to keep it lively for their officers."

The veteran Navy man, who has been on the University campus for ten years, wears campaign ribbons for service in the Mexican campaign of 1914, duty at Santo Domingo, Cuba, overseas duty in the First World War, American defense and good conduct.

**On Convooy Duty**

During the First World War he did convooy and escort work out of Gibraltar. After the armistice he served aboard a ship assigned to remove German-laid mines from the North Sea. Before coming to the University, he was stationed in China.

"The present Navy V-12 program far exceeds that of the First World War," Harmony declared. "There was not such an acute need for such a training program 25 years ago, but the expansion of the Navy during the present conflict has brought about its rapid growth."

In the First World War there were two or three officers' training schools throughout the country, the distinguished-looking chief warrant officer said. Recent figures show that 17,000 men are being trained in 213 colleges in the United States.

**Part of V-12 Program**

The N. R. O. T. C. has become a part of the V-12 program but it still retains its own identity, he pointed out. A senior N. R. O. T. C. student is stationed in each of the fraternity houses in which V-12's are living, as an assistant supervisor. At the end of two semesters' training V-12's may obtain a transfer to the N. R. O. T. C. if they are able to pass an examination.

The University of Washington branch of the N. R. O. T. C. was one of the first six to be instituted in the United States, Chief Warrant Officer Harmony recalled.

**Cornelius Colt Dead**

PORTLAND, Or., Nov. 15.—(AP)—Cornelius C. Colt, 69 years old, Portland banker and civic leader, died at his home yesterday. A former regent of the University of Oregon, he is survived by the widow and a sister.

### F. R. REQUESTS RELIEF FUNDS

WASHINGTON, Nov. 15.—(AP)—President Roosevelt today asked Congress to authorize appropriations for United States participation in activities of the United Nations' Relief and Rehabilitation Administration.

After the U. N. R. R. A. meeting in Atlantic City ends, the President said he would inform Congress of its result and ask the appropriation of specific sums.

In a message to the legislators, the Chief Executive said that each nation would determine for itself the amount and character of its contribution, and that it was hoped "a small fraction of the national income of the contributing member states" would be sufficient to help liberated peoples to help themselves in rebuilding homes, factories and farms.

The U. N. R. R. A. agreement, Mr. Roosevelt said, provides only a framework for giving "first aid" in liberated areas and the agency will make only a beginning in the tremendous job of aiding war victims. The liberated peoples themselves, he said, will assume the greater share of this task.

U. N. R. R. A., the Chief Executive asserted, will help furnish medicine, food, clothing and basic necessities and services needed to restore the strength of liberated peoples.

"They have been deliberately stripped by the enemy," Mr. Roosevelt said, "in order to support the Axis war machine. More than that, the Axis leaders have boasted that as they withdraw, they will leave only devastation—what they have not stolen, they will destroy."

### HEALTH QUIZ

YES NO

Do you have poor digestion?

Do you feel headachy after eating?

Do you get sour or upset easily?

Do you feel tired—listless?

Now everyone knows that to get the good out of the food you eat—you must digest it properly. But what most people don't know is that Nature must produce about two pints of the digestive juice—liver bile—each day to help digest your food. If Nature fails—your food may remain undigested—lie sour and heavy in your digestive tract.

Thus, it is simple to see that one way to aid digestion is to increase the flow of liver bile. Now, Carter's Little Liver Pills start to increase this flow quickly for thousands—often in as little as thirty minutes. When bile flow increases, your digestion may improve. And, soon you're on the road to feeling better—which is what you're after.

Don't depend on artificial aids to counteract indigestion—when Carter's aid digestion after Nature's own order, when taken as directed. Get Carter's Little Liver Pills today at any drugstore—only 25¢. You will be glad you did.

### Petain Has Stroke, Says Swiss Report

BERN, Switzerland, Nov. 15.—(AP)—The newspaper LaSuisse, in an editorial note to a Vichy dispatch on the failure of Marshal Henri Philippe Petain to appear on a balcony before crowds yesterday, said today it had reliable information, the aged marshal had suffered a stroke.

Another unverified rumor from the French frontier said partisans had made an attack on Petain. The French nation was told Saturday night to stand by for a speech by Petain.

A hand operated propeller for fishermen's boats has been invented.
