AN EDITORIAL:

WARDENS COMMAND RESPECT FAIR PLAY GROUP

Always on duty, 24 hours a day, whether it be cold or hot, snowing or raining, they serve our community efficiently. The wardens are always on the alert, always ready to go into action at a moment's notice.

Upon request these wardens anxiously supervise the crowd at dances and programs. They patrol the city regularly and maintain law and order. Their task is tedious and routine, but they always serve us willingly and cheerfully.

However, as long as the colonists look upon them as mere watchmen, and not as policemen, their hands are tied. We must look upon them with respect and treat them as police authorities. Our wardens boast a very good record and they will deserve our respect. Let us look upon them as officers and give them our whole-hearted co-operation.

Fair Play Committee Seeks To Defend Minority Rights

Defending the right of the Americans of Japanese ancestry as well as seeking to uphold the principles of the Constitution and the liberties guaranteed in the Bill of Rights, the Pacific Coast Committee on American Principles and Fair Play sent an open letter to every member of the State Legislature of California.

The Committee whose aim it is to defend the liberties of law-abiding persons of Oriental ancestry states in part, "Recognizing that in times of acute stress people are led easily into the advocacy of extreme and even dangerous measures which in calmer days would find little support, and that safeguards must be taken, we have formed this Committee on American Principles and Fair Play."

Eminent Men Are On Board

Among the figures supporting the rights of the minority groups are: President Robert Gordon Spraul of the University of California, Maurice E. Harrison, Dr. Arthur Cushman McGiffert, Rabbi Irving E. Reichtort, Dr. Paul S. Taylor, Dr. Mary Lyman, Harry S. Scott, Galen M. Fisher, Alfred J. Lundberg, and General David Prescott Barrows.

The Pacific Coast Committee on American Principles and Fair Play whose aim is to defend the liberties of law-abiding persons of Oriental ancestry stated certain fundamental beliefs which they believed should be upheld.

The Committee beliefs as released were as follows: (1) That attacks upon the rights of any minority tend to undermine the rights of the majority. (2) That attempts to deprive any law-abiding citizen of his citizenship because of racial descent are contrary to fundamental American principles and jeopardize the citizenship of others. (3) The legislation to deprive Americans of Japanese descent of any of their legal rights would set a precedent for depriving other racial groups of their rights, and would weaken the confidence of our Allies, particularly those in Asia and Latin America, in the sincerity of our professions to be fighting for the rights of all people. (4) That it is un-American to penalize persons of Japanese descent in the United States solely for the crimes of the Government and military caste of Japan.
