FARMERS IN URGENT NEED OF MORE FARM EQUIPMENT

Farm equipment machinery of all kinds is badly needed by farmers throughout the country. American farmers have been asked to increase crops for this and for succeeding years to meet the enormous demands now being made upon American food resources.

At the present time, America is feeding practically two-thirds of the world. At the conclusion of the war, this country will be required to feed for a time at least practically the whole world.

The exigencies of war have made it necessary to convert most farm equipment manufacturing companies into plants for war production. This has left a growing shortage of farm equipment machinery.

To meet these urgent demands, a bill has been introduced into the California

EVACUATED COAST AREAS OPEN TO NISEI SOLDIERS

DE WITT ANNOUNCES CHANGE

Evacuated areas of the west coast are now open to soldiers of Japanese ancestry serving in the United States Army who wish to travel in that area when on leave, it was announced over the week-end by Lieut. General John L. DeWitt, commanding general of the Western Defense Command and Fourth Army.

However, regulations prohibiting

the presence, entry, and movement of all other persons of Japanese ancestry to the area remain in effect, it was emphasized.

Permitting uniformed soldiers of the United States Army to enter the zone was considered in the national interest, General DeWitt said.

According to the new edict, American-born Japanese in Army uniform may now travel in Military Area No. 1, comprising roughly the coastal regions of California, Oregon and Washington and the southern frontier of Arizona and Military Area No. 2, which includes the balance of the state of California.

Fifteen men are needed immediately for the crew.

"Anyone who volunteers will be doing a good deed for the Project," he said.

CHICAGO YWCA OFFERS AID TO EVACUEE GIRLS..

In Chicago the Y.W.C.A. is whole-heartedly aiding the WRA, it was revealed by Mrs. Eleanor Shirrell, wife of former Project Director Elmer L. Shirrell.

She has been made a member of the organization's War Activities Group to represent the evacuees.

In Chicago, the Y.W.C.A., together with the Friends Society and the Federation of Churches, is aiding the WRA in its re-settlement program, especially in giving to Japanese-American girls a friendly welcome and practical help in finding a place to live and in getting adjusted to life in a strange city.

Mrs. Barbara Abel, publicity secretary of the Y.W.C.A. writing to all the centers about the facilities offered to evacuees by the organization stated that most girls who come to Chicago would like to live at the Y.W.C.A. residence, but unfortunately there are only four of them and every one of them has a long waiting list for permanent rooms.

The Room Registry, however, stands ready to help by finding rooms in private homes of girls' clubs.

Mrs. Abel instructed that if any young woman of this Project is to make her new home in Chicago she should let "Y" know she is coming. The Y.W.C.A. will be glad to arrange to have one of their members meet her at the train.

All letters should be addressed to Mrs. Miette Cummings, director of the Service department, 203 North Wabash avenue.

VALE PEOPLE ARE FRIENDLY

Writing to Kenneth M. Harkness, superintendent of education, George Hori writes of the decency and friendliness of the residents of Vale, Oregon. Prior to relocation, George was employed in the Co-op office. Following is an excerpt from his letter.

"I can say without hesitation that the people couldn't be any friendlier and the atmosphere any better. They don't stare at you like freaks nor have I heard any of them make any remarks against us. It all reminds me of the friendly little town I lived in prior to evacuation--Kent, Wash. An example of how homey the atmosphere is the fact the one day while waiting at the counter at Newton's Grocery, a lady asked me if I were the clerk. Her tone was such that she did not think it was strange to see an American of Japanese descent working in the store. Such attitude certainly helps keep one's confidence in everything America."

"NYAHHH, YOURSELF!!!"

MISS MONTGOMERY RELATES CHANGES ON THE OUTSIDE

Miss Dorothy Montgomery, Social Welfare supervisor, returned to her duties Monday morning after a well-earned two week's vacation in San Francisco.

As to what impressed her the most during her short stay in the city, she said that it was strange to see women running taxi-cabs, street cars, and other vehicles that once were handled by men. Women do just as well, if not better, than the men, she commented.

Other changes she noted were the women in overalls with grimy faces walking so casually on Market street where once the best-dressed women trod, and the many WAACS and WAVES.

Appealing to the feminine eyes are the gay Easter clothes on display in every shop, added Miss Montgomery.

Farm Machines Are Needed

(Continued from page 1) more value in use to those who need it now than to those who may need it in the future.

Aside from the fact that stored machinery deteriorates both in usability and in value, the sale of this machinery now will materially aid the American farm war effort.

Evacuees who own machinery of this kind are urged to relocate as soon as possible so that this machinery may be put to the most practical use. Failing this, evacuees are urged to sell their farm equipment machinery at once so that the American farmers can speed up this vital war effort of producing food for this and many other countries.

Those wishing to sell their farm machinery may contact Mr. Lowery at the Evacuee Property office, Administration building.
