TULE LAKE QUOTA FOR N.Y.A. 25 BOYS, 10 GIRLS

REGISTRATION OPEN NOW

Under an agreement between WRA and the National Youth Administration, the training centers of the NYA will be open to citizens of Japanese ancestry between the ages of 16 and 25. Specialized vocational training will be offered to both males and females to equip them for industrial positions.

The initial quota for Tule Lake residents is for 25 boys with courses in machine shop, foundry, sheet metal, pattern making, and drafting.

The center for boys is at Shakopee, Minnesota, on highway 212, not far from Minneapolis.

The quota for girls is 10, and the training center is at St. Cloud, Minnesota. Courses will be offered in machine shop and sheet metal.

LAST BUS FOR CALDWELL SOON

The last bus to Caldwell, Idaho for spring work for the Amalgamated Sugar Company will leave next Monday or Tuesday with 26 persons. Recruiting ended when the number of applicants became insufficient to continue.

There are approximately 250 NYA training centers throughout the United States. If this program proves successful, an avenue will be open which should offer training opportunities to all citizen evacuees between the ages of 16 and 25 who desire such training.

In order to apply for this training, the applicant must first go to the Leave Clearance office and obtain a statement from that office that he is eligible for leave clearance. He will then be interviewed by Frank Fagan at the employment office.

Inasmuch as the initial quota is pro-rated among the several relocation centers, prompt action is necessary if this project is to avail itself of the quota listed. In case there is delay the quota will be reassigned to another center.

Outside Job Applications To Be Made At Placement

All applicants for positions outside of the project should make application through the Placement Office, as no more letters of application are to be made by the evacuee direct to the employer, it was announced by Frank D. Fagan, Placement Officer.

It is not necessary to apply again, if a letter has already been written to the prospective employer. And the Placement Office will follow up all applications upon request.

He stated that under the new procedure much time will be saved.

AN EDITORIAL

MOTHERS DAY TOMORROW

Tomorrow, May 9, is Mother's Day. Mothers throughout the Project will be honored for the first time since their arrival in Tule Lake.

The hardship that our mothers have gone through knows no bounds; they have undergone much strain and worry. Yet they have gone about their tasks of keeping a home and caring for the welfare of the family without any bitterness nor complaint. Under great adversities our mothers have kept the family unit together.

Majority of the issei mothers are well into their years. They have gone through much and suffered more than one could ever realize. These mothers have well earned their comfort, peace, and rest.

Mothers will be honored by block clubs and other organizations tomorrow. Entertainments, tea, informal chats, etc. will be had all day long throughout the Project.

But let us not remember our mothers just for tomorrow. Let us all make each day Mother's Day and cherish and love her always.
