NEW HOURS AT FISH MARKET

The new opening and closing hours for the Fish Market will be 9-12 a.m. and 1:15 to 4:30 p.m., it was announced by the Co-op.

The change in the hours has been made necessary in order to prepare fish for sale in the mornings and to clean up in the afternoons.

NO DAMAGE AT SAT. FIRE

Last Saturday, July 10, a grass fire which started from an unknown cause broke out near the railroad tracks in the southern end of the colony. It was reported at 4:30 p.m. with engine No. 1 responding to the call but because of irce-sant winds the fire became imminent and engines No. 2 and 3 also aided. After little resistance the blaze gave way to the combaters.

RESIGNS POST

Mr. Corky Kawasaki, executive secretary of the Tule Lake Cooperative Enterprises, Inc. since the latter part of January, has resigned and will leave for Spokane, Washington July 15.

If the fire had not been checked in time, the lumber yard may have been imperiled, it was said.

Volunteers From Centers Included In Graduates

Another significant milestone in the story of Nisei American contribution to the war effort of the United States was marked by a unique graduation ceremony which took place on June 18, 1943, at Camp Savage, Minnesota. The simple but impressive outdoor exercise ended an intensive course of study for the graduates, a great portion of whom were volunteers from the relocation centers. The graduates who received their diplomas as specialists were addressed by a high ranking Major General from Army headquarters in Washington and were told of the trust and confidence their performance and that of their predecessors in the field had won.

In the various utterances made during the ceremony it was stressed again and again that the future of all Nisei Americans depended upon the achievements of those who were privileged to prove their loyalty in action. Speakers representing the graduating class reasserted the faith of all loyal Nisei in the spirit of sportsmanship and fair play of the American people and pledged the class to unfailing service for victory in the firm belief that their cause as Nisei Americans was an integral part of all America was fighting.

The graduating class was the largest in the history of the school, which has grown by leaps and bounds since it was first activated to train specialists for the U.S. Army. Further expansion of the organization recently announced is concrete evidence of the satisfactory results which Nisei soldiers, alumni of Camp Savage, have made on the fighting front.

TEACH JUDO AT MARYLAND

One of the nisei evacuee workers on Secretary of Interior Ickes' farm, Fred Kobayashi, will join the University of Maryland's physical education staff next week as an instructor in Judo, it was reported in an Associated Press release in the Sacramento Bee.

The University has been trying to obtain a judo instructor from among the west coast evacuees for more than a year, the story said. Ickes has applied for a Japanese-American replacement.

PROPERTY FORM

The project attorney now has copies of form TFR-500 for those who wish to report property owned in foreign countries, it was announced by the Legal Aid Dept.

NOT THAT IT MAKES MUCH

...difference, but it is reported from a very reliable source that the poultry farm fire last week was discovered by one of the Project wardens. To give credit where credit is due, we salute the wardens for their alertness.

SEGREGATION IS THE

...main topic of conversation among residents these days and even children are wondering what its all about.

Two very young girls who shouldn't be thinking of such things asked us what the word "segregate" meant. We said that it meant that some people would be moved out of this Project.

One of the girls replied, "Oh Boy, I hope they move us. I want to take another ride on the train."

If it only was just as simple as that.

THE TEACHERS WHO

...participated in "FACULTY FOLLIES" proved a point that other teachers have been trying to prove for a long time--that they are human just like everyone else.

Which reminds us of a teacher who told us time and again that "you don't have to be crazy to teach but it helps."

THE TRI-STATE GIRLS'

...glee club and band presented a swell program for a swell cause Monday evening. The purpose of the program was to help raise funds for the high school scholarship fund which will be used to send some of this year's graduates on to college.

Besides numbers by the glee club and band, there were solos by three of the best singers in the city--Shigeo Yabe, Ruby Kumasaka, and Martha Fukami.

Other highlights were a cornet trio, Spanish dance, and the girls' septet.

More events are planned in the future to aid the scholarship fund.

GOAL OF HOG FARM IS TO RAISE 2500 HOGS A YEAR

During the month of March and April the hog production reached an all time high with 700 hogs being added, it was reported today. The total number of heads has now increased to 1900. The minimum goal of the hog farm is to produce 2500 hogs per year. When the hogs fatten to their proper weight and when necessary arrangements are made, there will be 50 hogs slaughtered each week for use in the Project.

At present many of the

GILA CENTER SHIPS MELONS TO ARMY

Gila Relocation Center in Rivers, Arizona, recently sent their first farm product to the Army when on Independence Day a group of farmers picked 20,000 pounds of watermelon to be shipped to a nearby Army camp, according to the Gila News-Courier.

Only surplus products will be given to the Army, it was reported.

ADVISORY COMMITTEE:

DON'T EXPECT MISTREATMENT

(The following report on actual conditions in the Midwest was prepared by Advisory Committee for Evacuees with the aid of the American Baptist Home Mission Society and the American Friends Service Committee. It is based on personal experience of evacuees relocated in that area.)

Fears of mistreatment on the outside which evacuees acquire while still in camp are largely exaggerated, unwarranted, unjustified.

For instance, most evacuees, on leaving camp, gingerly wonder how servicemen--soldiers, sailors, marines--will treat them on the train. Counsellors may advise evacuees, on the basis of the combined experiences of hundreds who have already come out, that they ought to expect normal, pleasant--certainly not unpleasant--encounters as a matter of course. "The soldiers on the train were swell; they carried my bags for me," one attractive young lady recalled. "We came across with a couple of marines; we're corresponding with one of them," another couple said. Are these exceptional cases? Not necessarily. Relocation is being discovered as enjoyable by normal young men and women who regard themselves as Americans and expect to be treated as normal Americans. It is in reality, an individual challenge. For the non-citizen issei who come out on relocation, the successful readjustments are being made by those individual issei who regards themselves as permanent residents of America--and not as sojourners or alien enemies, in spite of legal restrictions. Issei are coming out on relocation and making a go of it.

(To be concluded tomorrow)

hogs are grazing in the rye field located nearby. This is beneficial to them because it will give them a change in diet, aside from their daily dry grains and mess hall garbage.

Starting last week, the hogs have been undergoing a blood test. This diagnosis will check whatever kind of disease the hogs may have inherited during its existence. This precautionary measure is also taken so that the residents will not be victimized from diseased meat.

It was also reported that the mortality rate has been at a low percentage, as compared to the winter months.

There are 22 capable men who are taking great care of the hogs and keeping them all contented. Each of the men have a specific duty on the farm, and already each has contributed more than his share to make the hog farm what it is today.

ACTS AGAINST DEPORTATION

Vigorous disapproval of an article in the current issue of the national American Legion monthly, which openly urges forcible and wholesale deportation of all American born Japanese from the United States, was voiced at a meeting of Northfield Post 84, American Legion, it was reported in the June 14 issue of the Minneapolis Morning Tribune.

A resolution denounced any such idea or plan as not only antagonistic to American ideals of freedom and democracy but entirely contrary to Legion principles and its constitution.

The Kansas City resolution, passed last year, stated in effect that religious intolerance and racial prejudice were considered by the Legion as weapons of our enemies and would not be tolerated here.
