A GREAT CHALLENGE

Commencement time has arrived for the first graduating class of Tri-State High School. The seniors are faced with a challenge greater than ever before. Unlike the outside world, there will be few job opportunities open within the project because of the recent cuts ordered by the WRA in the various departments.

There are four channels open to you graduates. First, you may stay within the project and just idle around; second, you may place yourselves in suitable positions within the project; third, you might relocate and establish yourselves on the outside; and fourth, you could continue your education at higher institutions of the middle-west and eastern states.

Whether you remain in this Project or relocate, you can establish yourself if you have the determination and will to succeed. The decision rests with you. However, you seniors must bear in mind that, if you relocate, the conditions on the outside are not the same as the pre-war days.

To the graduates we offer our sincere congratulations. You have done a masterful job of establishing the Tri-State High School. May you utilize your acquired knowledge to the fullest extent.
