Richardson To Visit Here

Mr. Gerald Richardson, head of Business Enterprises, Washington, D.C. will visit the local Cooperative sometime within the first two weeks of August.

Richardson will be accompanied by Mr. Otto Rosaman, business advisor, attached to the Washington office.

YEN CERTIFICATES MUST BE REPORTED; REGULATION

The project attorney states that yen certificates must be reported under Treasury regulations respecting foreign-owned property. A number of people appear to be under the impression that yen certificates are not subject to the regulation, and the project attorney wishes to inform them that this is not correct.

EDITORIAL

DON'T SPREAD RUMORS

This is no time to be spreading rumors.

True, there are many questions which many of us would like to have answered concerning segregation and relocation, but certainly we will not get the answers by listening to rumors.

Mr. Ray Best, project director, stated "It is our desire that complete factual information reach each and every individual."

One way in which this will be done, is the establishing of Information Consultants at strategic locations who will answer all questions.

Also within the next week, all residents will receive a pamphlet, a digest of the "Manual of Evacuee Transfer Operations" issued by the WRA, which will answer your questions and explain in detail all operations affecting transfer from this project and those affecting the colonists who will remain in Tule Lake.

The DISPATCH will also take up the fight against unfounded rumors by daily debunking tall tales, starting tomorrow.

With these methods, probably others to follow, there should be no excuse for the rumor-mongers to be able to work here.

Be patient, and you will get your questions answered.

moto of Ft. Riley, Kans., is visiting at #1213-A.

Pvt. Yoshida of Camp Hale, Colo., is staying at #2217-B.

OPPORTUNITY FOR GIRLS TO ATTEND COLLEGE MADE

An opportunity for forty nisei girls to attend the Quincy College at Quincy, Illinois has been made by Father Hugh Lavery, according to Father Hunt.

The Quincy College accepts Catholic and non-Catholic students at \$460.00 a year. This includes the total cost of tuition, board and room while a resident at the college.

A catalogue of the courses of subjects may be seen at the high school. Mrs. Tanabe, a mem-

ber of the Student Relocation Council, is in charge. For further information, write Father Hugh Lavery, 222 South Hewitt Street, Los Angeles, California.

Nursing Class Still Open

There is still room for a few more to enroll in the Red Cross Home Nursing classes being held at the present time by Miss Catherine Yamaguchi, itinerant nurse.

Starting on Monday, August 9, 12 more persons may enroll in a class being held at #5405 from 2-4 p.m. and 5 more at #6601 from 7-9 p.m. These classes are conducted in Japanese and will meet on Monday, Wednesday and Friday.

LOST & FOUND

LOST: A white gold Waltham wristwatch on August 1 along firebreak between Blks. 26 and 17. If found return to DISPATCH or 41 blk. mgr. Reward.

HEARINGS START AT GRANADA

A committee to hear segregation cases have been selected at the Granada Relocation Center, it was disclosed in the Granada Pioneer.

Of the approximate 16 nisei residents of that project who answered "no" to question No. 28, a few have already received hearings. All males who answered "no" will get hearings.

Pfc. Hideo Takahashi of Ft. Bliss, Texas arrived on August 4, and is visiting his parents at #1701-D.

SEGREGATION PROCEDURE GIVEN

The following are excerpts from Administrative Instruction No. 100 issued by the WRA which covers segregation procedure.

II. DESIGNATION OF CENTER FOR EVACUEES OF DOUBTFUL LOYALTY.

The Tule Lake Relocation Center in the State of California is designated as the center which is set apart for the residence of persons of Japanese ancestry residing in relocation centers who have indicated that their loyalties lie with Japan during the present hostilities. The center shall hereafter be known as the "Tule Lake Center".

After segregation is completed, persons in residence at the Tule Lake Center will not be eligible to receive seasonal or indefinite leave; nor shall present policies with respect to evacuee government in relocation centers be applicable to the Tule Lake Center. The entire area will be appropriately guarded.

All policies of the War Relocation Authority with respect to food, clothing, health, education, employment within centers, public assistance grants, consumer enterprises, and evacuee property and legal services, will continue to be applicable at the Tule Lake Center until further notice. An enumeration of the portions of administrative instructions applicable to relocation centers that are not to be applicable to the Tule Lake Center is now being prepared.

III. PERSONS TO BE PLACED IN TULE LAKE CENTER.

A.--All persons in the following categories shall remain in the Tule Lake Center, or shall be transferred to that center, as the case may be:

1. All persons who have formally asked for repatriation or expatriation to Japan and have not retracted their requests prior to July 1, 1943.
2. All persons who, at the time of the registration for Army service and war industries purposes, answered question 28 of Form WRA-126 Rev. or DSS Form 304A in the negative, or failed or refused to answer it, and (a) who have not changed their answers prior to the date of this instruction, and (b) who are in the opinion of the project director loyal to Japan.
3. All persons to whom the Director has denied leave clearance. This category will include persons in the following classes after hearings have been held and if and when leave clearance has been denied: (a) Persons about whom there is an adverse report by a Federal intelligence agency; (b) persons who have answered question 28 negatively and who changed their answers prior

to the date of this instruction, or who answered such question with a qualification; (c) persons who have requested repatriation or expatriation and retracted such request prior to July 1, 1943; (d) persons for whom the Japanese-American Joint Board established in the Provost Marshal General's office does not affirmatively recommend leave clearance; and (e) persons about whom there is other information indicating loyalty to Japan.

B.--Members of the immediate family of a person who falls within one of the three categories set forth in paragraph A above shall upon their individual request be permitted to remain with such person in the Tule Lake Center, or to accompany him to that center, as the case may be. If minor members of the immediate family who do not themselves fall within one of the categories set forth in paragraph A above object to residence at the Tule Lake Center every possible assistance shall be extended in helping to work out appropriate arrangements.

C.--Where one member of an immediate family residing in a center other than the Tule Lake Center falls within one of the three categories set forth in paragraph A above, but he or some other member of such family is so ill or infirm that removal will in the opinion of the project medical officer endanger life or seriously impair health, all members of the family shall be permitted to remain in the center of residence so long as such condition continues.

D.--Persons resident in the Tule Lake Center who do not fall within one of the categories set forth in paragraph A above, but who are so ill or infirm that their removal will in the opinion of the project medical officer endanger their lives or seriously impair their health shall be permitted to remain in the Tule Lake Center so long as such condition continues. Members of their immediate families, as defined in paragraph B above, shall upon request also be permitted to remain in the Tule Lake Center so long as such condition continues.

IV. PRIORITIES OF MOVEMENT TO TULE LAKE CENTER.

A.--In general, persons will be moved to the Tule Lake Center in the following order of priority.

1. Persons who have applied for repatriation or expatriation and have not retracted their requests prior to July 1, 1943, with the exception of those whose names are furnished by the Director as being persons who may soon embark for Japan. Persons falling within this exception shall be permitted to remain in the relocation

center until further notice.

2. Bachelor Kibei falling within the second or third category set forth in paragraph III-A above. For the purpose of this paragraph "bachelor kibei" shall mean a male citizen evacuee, unmarried as of the date of this instruction, who has spent a total of three or more years in Japan since January 1, 1935.

3. All others.

These priorities may be modified from time to time as to particular relocation centers, and priorities will be established for other persons to be moved to the Tule Lake Center.

B.--The first movement to the Tule Lake Center of persons falling within paragraph IV-A-1 above shall be from the Granada, Minidoka, Jerome, Rohwer, Heart Mountain, and Central Utah Relocation Centers. After such persons have been moved from these centers, movement of persons from the Manzanar, Colorado River, and Gila River Relocation Centers shall be arranged. Priorities between relocation centers for movement of persons to be segregated for other reasons shall be established from time to time.

VI. PREPARATION FOR TRANSFERS FROM TULE LAKE CENTER

A. The project director of the Tule Lake Center shall immediately prepare two lists containing the names of the following classes of persons:

1. All persons falling within the three categories set forth in paragraph III-A above, who are to remain in the Tule Lake Center, together with their immediate families (hereinafter called the Resident List). If all the persons falling within the second category set forth in such paragraph have not already been interviewed for the purpose of determining whether they are loyal to Japan, the project director shall promptly interview them for such purpose and make his determination, striking from the Resident List the names of those who in his judgment are not loyal to Japan, together with the names of the members of their immediate families, and adding such names to the list provided for immediately below.

2. All other persons (hereinafter called the Removal List).

B. Each person whose name appears on the Removal List shall be promptly notified in writing that the center has been selected as the center of residents for evacuees loyal to Japan; that if his relocation is not arranged for prior to the time WRA determines it is necessary for him to leave he will be transferred to another center, unless he is physically incapacitated; that he is requested to appear at a designated time and place for an interview; and that at that interview he will be requested to express preferences for transfer as between Central Utah, Granada, Heart Moun-

tain, Jerome, and Minidoka, which preferences may have to be disregarded but will be heeded if possible to do so.

The project director shall cause each such person to be interviewed, preferably by family groups, to determine: (1) whether the evacuee is able to travel and if so whether special travelling accommodations will be necessary (to be confirmed in case of doubt by the project medical officer); (2) whether he would prefer transfer to Central Utah, Granada, Heart Mountain, Jerome, or Minidoka (listing all in order of preference, and making it clear that his first preferences may have to be disregarded); and (3) what further assistance is necessary. The interviewer shall notify the evacuee of the provisions of paragraph VII hereof, dealing with transportation of property, and assist in filling out Form WRA-156 if the evacuee wishes property to be transported thereunder.

During the month of August a special effort will be made to facilitate the relocation of residents of the Tule Lake Center who are on the Removal List. No person on the Removal List shall be permitted to request repatriation or expatriation, or to change his answer to question 28 from an affirmative to a negative or other answer raising real doubts as to loyalty, until the large movements under this instruction to and from the Tule Lake Center have been completed.

C. Each person falling within one of the three categories set forth in paragraph III-A above (whose name will appear, together with the names of the members of his immediate family, on the Resident List) shall be promptly notified in writing that he has been designated to remain in the center. If there are members of his immediate family who do not fall within one of these categories, he shall further be notified of that fact and requested to appear at a designated time and place, together with such members, for an interview.

Such interview shall determine whether any such family member wishes to leave the center (it being made clear to him that it may be difficult for him to leave the center unless he exercises the option now). If he wishes to leave, his name shall be added to the Removal List, the interviewer shall proceed with the interview, and such person shall be processed, as if his name had originally appeared on the Removal List.

D. As additional applications of Tule Lake residents for leave clearance are denied, the names of such persons shall, if on the Removal List, be transferred to the Resident List, and they shall be promptly notified that they are no longer eligible to leave the center.

As additional applications of Tule Lake residents for leave clearance are granted, the names of such persons shall, if on the Resident List, be transferred

(Continued on Page 3)

to the Removal List, and such persons shall be processed as provided in paragraph B above.

VII. TRANSPORTATION OF PROPERTY OF TRANSFERREES

A. All evacuees transferring from one center to another under this instruction shall be notified to carry with them, as hand baggage and checkable baggage, sufficient clothing and necessary household and personal effects to maintain them for at least 60 days, in view of transportation and other administrative difficulties that will necessarily be in-

involved in transporting their property separately.

B. All furniture and other property, in the apartments of such evacuees or stored in warehouses at the center of departure shall be crated and transported to the center of destination upon request of the evacuees presented to the project director upon Form WRA-116. Shipment to the new center at Government expense shall be in addition to transportation furnished under Administrative Instruction No. 78. The cost shall be borne by the center from which the evacuee is transferred.
