

CL. II NO. IV

Tule Lake Colony

Saturday June 27, 1942

STORE SALES \$1500 IN 1-DAY

The main Community Store, which is jam-packed with eager customers during most of its business hours, did the top sale of \$1500 in one day last week, it was announced by M.C. Cooke, Superintendent of Community Enterprises.

Due to its popularity a second store is now being constructed at #2708. Cooke announced that merchandise will be stocked up during the week-end and that the doors may probably open to the public Monday.

Amateur carpenters, making chairs and tables for their own apartments, rushed in to purchase more than 100 saws and hammers during the last two weeks. The rush still continues with more evacuees coming in from the Marysville Center.

A community barber shop and beauty parlor are scheduled to be opened next Wednesday in #718.

300 EXPECTED TO REGISTER FOR DRAFT HERE TUESDAY

18-TO-20-YEAR BOYS AFFECTED

More than 300 male residents, between 18 to 20 years of age inclusive, are expected to comply with the Fifth Selective Service Registration Proclamation Tuesday, June 30, between the hours of 7:00 to 9 p.m. in the Recreation hall #2408.

STUDENTS MAY ENTER SCHOOLS

To make arrangements for relocation of college students from this Center to their desired institutions, Floyd Schmece of the American Friends Service Committee was here this week to make a survey.

Schmece stated that there will be a counselor from the Student Placement Committee within a week to interview those interested in continuing their studies and to receive applications for permits to leave the Project to attend Midwestern and eastern universities.

All male persons who were born on or after Jan. 1, 1922, and on or before June 30, 1924 are affected. The proclamation states: "The registration under this proclamation shall be in accordance with the Selective Service Regulation governing registration. Every person subject to registration is required to familiarize himself with such regulation and to comply with."

Sumio Miyamoto, Henry Takota, Dr. George Takahashi, Walter Tsukamoto, Dr. George Muramoto and a group of clerical workers will assist in the registration.

LUMBER AFFAIR SERIOUS, COUNCIL WARNS

A serious situation arising from continuous missing of screens and lumber belonging to the building contractors in the Project was the center of discussion at the special Community Council meeting held Thursday night with Morton Gaba, Community Activities Supervisor, presiding in the absence of Gerry Wakayama, chairman.

It was suggested to have block managers make a house-to-house canvass explaining the situation, and to place wardens at

all areas under construction.

The Army, it was reported, warned that unless the matter was immediately attended to it may be necessary to import a group of soldiers to guard the material.

The council also discussed an important matter concerning the large wood piles the residents have collected between the buildings near laundries in their blocks. Fire Marshall Rhoads is about to condemn these piles as a safety precau-

tion.

Gaba informed the Council that a contract with a lumber mill for wood supply for the colony is completed and assured the residents a sufficient fuel supply without piling wood in the alleys. He suggested that each block residents fill their boxes with wood from their pile and leave the remaining to other colonists. This suggestion is now under consideration by the different blocks and decisions will be made.

Purely Common Sense

EDITORIAL PAGE

Sat. June 27

In a conglomeration of humanity like we have here in this colony--or in any community so far as this is concerned--it is expected that we should have some form of friction between individuals and between groups of diverse interests and psychological makeup.

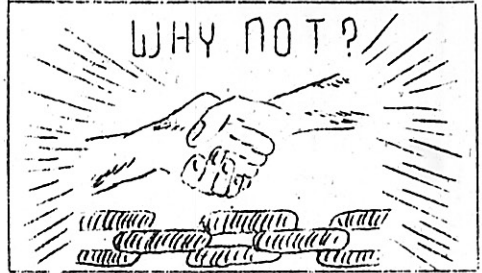

It is more so in our case when all of us have been gathered together from different social and economic backgrounds in a short time of a month or so. More so because of our geographic differences.

Doctors, lawyers, ministers, students, merchants, farmers: they are all here. Here, too, are men with several college degrees and others who have gone only a few years in night schools. We have professional and businessmen whose annual income may have been \$10,000 or so and domestic workers who used to eke a meager living. Families from cool Northwest and families from warm Sacramento Valley are all placed in the same closely-confined colony.

But there is one thing we all have in common. That is our realization to "do the best we can under the circumstances" and to create a colony which would give no occasion to the outsiders to point a finger of derision at us--a colony that would do justice to our mentality and social habits. We are on the same boat; let no one forget that.

We have another thing in common. That is our attitude--born of the present circumstances--to cooperate with those in the position of leadership to give the best we have in us; our talents and abilities, our brains and muscles--for the good of the colony. Let no one ask for special privileges.

It is devoutly hoped that the administrative officers and leaders in various departments would understand this exuberant characteristic of the colonists in our center at the moment and to give the residents every opportunity to show their enthusiasm and initiative. We may then enjoy the thrilling experience of a grand and historic community undertaking for the duration. H. M. L.

Let There Be More Smiles

As one watches the daily settlement of the colonists from various localities, he cannot help but notice an air of misunderstanding between the Northwest and the California groups.

Upon investigation it is found that this situation has arisen through a misconception on the parts of both sides. Both contingents, it seems, had a set frame of mind as to the character of the persons whom they were to meet. And this thought was, unfortunately, not favorable in either case.

Now that they are better acquainted they begin to realize how wrong they were. But still there are a few who stubbornly cling to their preconceived notion.

After all it takes all sorts of people to make up the world and our community is no exception. Just because there's one bad apple in a pile doesn't mean that all apples are bad.

Everyone is here for the same reason and through no other choice. Let there be no cliques nor barriers. Let there be harmony and cheer.

Next time you visit a canteen or go to a dance, throw a smile and be sociable and pleasant. By so doing much can be accomplished and miseries forgotten. By all means be cheerful and broadminded. E. O.

Volume II Number V

POLICE FORCE ON 24-HR. DUTY

On duty 24 hours a day in eight-hour shifts, the warden force of our community enforces rules and regulations, watches out for fires and assists the residents in emergencies. Special assignments such as guarding property, keeping colonists out of newly constructed areas and keeping order at social functions are also an integral part of the program.

Wardens, who may be identified by blue arm bands with gold diamond inlays are making every effort to settle all problems without force or coercion. They will be trained in first aid, fire prevention, judo and the technique of handling crowds.

Present supervising wardens have been named as Yonosuke Takeo and Tom Taniyasu. Headquarters will be established in the north-end of #1808. All wardens must be at least 25 years of age, in good health and have a satisfactory amount of education.

Harold S. Jacoby, head of the organization, commends the community in its cooperation thus far and hopes that the new residents will realize the importance of keeping order in the colony through the efforts of the local warden system.

Policy Set For Recreation

In three meetings held in each of the wards, the commissioners of the Recreation Association for the community were elected last night. Although open to everyone interested in the activities and the policies of the recreation department, the important mass meetings woefully lacked attendance.

BLOCK HEADS TO COOPERATE

To promote a more unified and an active block community program, Morris Abe, Community Council representative, and Paul Abe, Block Manager, of Block 15, took initial step in creating a block advisory board comprised of eight members.

It was decided at a mass meeting in dining hall #1520 last Wednesday that the three sectional groups existing in the block are given equal representation.

The appointees are: H. Uyetake, W. Ichihashi, Portland; S. Taniyasu, T. Ogura, Salem; and H. Kawasaki, H. Ichimura, Sacramento.

To facilitate complete intra-block cooperation, the two sectional representatives are Issei and Nisei respectively.

Abe declared that the installation of an advisory board will bring the block residents closer to him and will enliven an active interest in their community. Similar action is being taken in other blocks.

Commissioners' duties and powers were explained to the association members before the election. Until the colony is filled up, it was explained, the powers of the commission would be purely advisory. As the voice of the people the commission would have the privilege of airing any complaint or issue considered a camp-wide problem.

Election results were: Ward 1--Perry Saito, Peggy Osasa and Tom Oguda; Ward 2--Jack Oshita, Schmid Oshita and Toko Fujii; Ward 3--Tom Uchida, Jim Hashimoto and Saki Hayashi.

11 NEW "07-D'S" ARE APPOINTED

Eleven new block-managers have been selected. They include Wallace Tsuda, 1007-D; Ted Ito, 1907-D; George Sakiyama, 2207-D; William Teramoto, 2307-D; William Inouye, 2407-D; Frank Miyake, 3107-D; William Miyeda, 3207-D; Yukio Mizuguchi, 3307-D; Jack Okumura, 3407-D; Frank Miranaka, 3507-E; and Minoru Izuno, 3607-D.

The block manager who is the chief administrative aide in each of the apartment blocks and serves as the liaison officer between the administration and the colonists is selected after he is personally interviewed and due consideration is given as to his abilities in leadership, responsibility, and accountability.

WARDEN'S DILEMMA

A warden was confronted with a peculiar problem recently. Detailed to guard the new buildings materials, he saw three women disappearing into a pile of new lumber. Upon confronting the vandals with the hope of returning the possession, he was startled by an enthusiastic cry, "Geo, you're just in time. Will you pile those on your trucks and take them to my apartment?"

Needless to say, the lumber was duly returned. "It was a ticklish situation", declared the warden. Cooperation on the part of the people would eliminate such embarrassing moments for hard-working wardens.

**WILL ORGANIZE
TOWN FORUM**

Mental recreation will be provided for intellectuals in the Project when a community forum is organized shortly. Ted Saigeno, recreation leader in charge of the forum, is calling for a meeting of the group 8 p.m. Monday in Dining Hall #1206.

**COLONY BUDDHISTS TO
INAUGURATE SERVICE**

Buddhist services will be inaugurated in this colony beginning this Sunday, June 28. For further information as to time and place, read your dining hall bulletins. The Rev. S. Sasaki will officiate. Members of the congregation are asked to bring their own chairs.

CHURCH SCHOOL

Services This Sunday:

8:15-9:15 a.m. Sunday School Hour:

Beginners: (Ages 4-5)

Ward No. 1....(May Miyamoto).....Building #1408.

Ward No. 2....(Masako Miyake).....building #2608.

Ward No. 3....(Mary Machida).....building #3108.

Primary: (Ages 6-8)

Ward No. 1....(Rose Soyejima).....building #1408.

Ward No. 2....(Hannah Miyai).....building #2608.

Ward No. 3....(Fill Inoue).....building #3608.

Youths (out of high school)

Dave Okada will be in charge of the Sunday School. Church Service will be held from 9:30 to 10:30 in building #2508.

MORNING WORSHIP SERVICES:

All youths from 9 to 18 will hold their own combined Sunday-school and Church Services from 8:15 to 9:30. READ Church-School notices for place and leaders.

9:30 to 10:30 Nisei (Ages 19 and up. #2508 Rev. George Almond of Tulalake will preach the sermon with Rev. Andrew Y. Kuroda in charge of the services.

10:30 to 11:30 Issei Service. Building #2508 Rev. Kensaburo Igarashi, formerly of Sacramento, will preach the sermon.

EVENING FELLOWSHIP HOUR 8:00 - 9:00

High School Fellowship

Hiroshi Kaneko will be in charge. #1708.

Young People's Fellowship—college age.

Tom Okabe will be in charge. #2508.

WEEK-DAY ACTIVITIES

Issei Prayer Meeting--Wednesday, 7:30 p.m.

Rev. Kensaburo Igarashi, directing, #2408

Nisei Prayer Meeting--Bible study. Wednesday, 7:30 p.m. #2608.

Rev. Andrew Kuroda, directing.

If you wish to sit down, please bring own chairs.

**Two Doctors Among Nine
Arrivals From Tanforan**

Hajime Ueyama, M. D., and Dr. Charles Mitsuji Ishizu, dentist, were two of the nine arrivals from the Tanforan Assembly Center on a stage Friday morning. Dr. Ueyama practiced medicine in Berkeley and Oakland, while Dr. Ishizu was a resident of Stockton.

**SOCIOLOGISTS
TO STUDY COLONY**

Dr. Dorothy S. Thomas of the University of California visited Tule Lake to complete arrangements for research on the sociological aspects of evacuation and relocation. Several of her students who are located at Tule Lake will participate in this research as part of their program for advanced degrees.

**GOT BAGGAGES NOT YOUR
OWN? PLEASE RETURN**

The Housing Committee is asking for cooperation of the people to turn in all baggages not their own and which have been mistakenly delivered to their residence, to their respective Block Manager.

A married couple who recently arrived, is still looking for their green suitcase which contained all their underwear.

In order to facilitate recovery of lost articles, a lost and found department was started in the paper since the last issue.

FOUND: One yellow sweater and one green sweater with short sleeves, left in Mess #8 at Walerga, Sacramento Assembly Center. Owner may claim it at 3605-D.
FOUND: A box of soap and other articles left by friends for K. Nishimura of Walerga. Will he please call for the articles at 3605-D.
FOUND: Men's gray sweater. Call for at 2807-D.
FOUND: In men's wash-room in block 14 one man's ring. Owner may claim it from Ben Kasubuchi at 1407-D.

LOST: Crated table model radio lost on way to Tule Lake from Walerga. Notify 2807-D.

FIREMEN ARE WELL ORGANIZED

The efficiency of the Colony's firemen should be unquestioned since their organization has been thoroughly completed. Fire Control Supervisor Ernest Rhodes declared today. The system of three shifts was instituted by the acting assistant Fire Chief George Takao and approved by Rhodes.

The fire captains appointed by Rhodes to lead each shift of eight-men crew were named as follows: Art Komono, Key Maekawa, and Minoru Kimura of Fire Station No. 1; Giro Snow, Yoshio Nishida, Ed Nojima-Frank Sakita of Fire Station No. 2.

A reassuring note of confidence was expressed by the firemen during the demonstration of water pressure of the hydrant using the regular 2½" hose. Pressure of 150 lbs. per square inch was recorded on each booster pump.

To prevent further repetition of the fire alarm call by an unknown party without giving the definite location of the fire, a request was made by Takao to the colonists to give definite block and house numbers in the event of a fire.

U.S. STUDENTS TO REVIVE "OLE SPIRIT"

All residents who had at sometime attended University of Calif. and are interested in organizing a club to revive "good ole Cal spirit" are encouraged to contact Mas Sakada or George Nakamura.

To the colonists and personnel of Tule Lake: We wish to thank you for the kind consideration and sympathy given us upon our father's death.
Mrs. K. Mafune
Mac Mafune & family

High-lighting Tuesday's happenings was the purchase of four \$1,000 denomination defense bonds at our local bank. Several sales of bonds of smaller value were also reported for that day.

Senryu and hokku were organized in our colony, and anyone wishing to join should contact Ray Muramoto in Recreation Center #1808.

FARM HEAD

A new addition to the Administration staff was Eric S. Eastman, the Director of Agriculture and Industry. He arrived in Tule Lake Thursday to take charge of all agricultural and industrial projects. He is a former public relations man for San Diego Chamber of Commerce.

Eastman's first and main interest will be the success of the current farming enterprise now underway under the direction of Kallam and supervised by Van Sandt.

MIXER LEADERS FOR TONIGHT

Eugene Okada, chairman of the Saturday night mixer to be held in #720 and #820 from 7:30 to 11 p.m., stated that Toki Fujii and Tom Hayashi (Sacramento) are in charge of a program to be held during intermission.

Patrons and patronesses are: Mr. Ted Waller, Mr. and Mrs. Henry Taketa, Dr. and Mrs. Henry Sugiyama, Mr. and Mrs. Harold Jacoby, and Mr. and Mrs. Kubota.

Help Wanted

The Administrative division requires the assistance of a well qualified Male Clerk, experienced in governmental audit requirements and preparation of Payroll Vouchers, Vouchers in payment for Materials and Supplies and Travel Expense Reimbursement Vouchers. Only experienced applicants desired. Please call Frank D. Fagan, Placement Officer, #1208.

BANK DAY TUES

TO SOFTEN COLONY WATER

"There is absolutely no shortage of water here in this colony", so stated F. W. Slattery, senior engineer, and Elmer L. Shirrell, Acting Project Director. However, inasmuch as the new sewage system is being laid the community residents are requested to refrain from using water unnecessarily as it is essential for the workers to have a light flow in order to do their work.

The present gas pump is to be replaced by an electric one which is to

be installed for permanent use. The sewage system now in use is comparable to that of the best city sewage of comparative size.

The administration hopes to arrange for a process of softening water directly from the tank. Plans are now being made for this purpose.

There is at present one 500,000-gallon tank with one more in preparation. The supply of water is being drawn from a source of five wells located in the project.

SANITATION DETERMINES SWIM POOL

After investigating swimming possibilities in the colony, a committee composed of Ted Haysent, Jimmy Bishop, and Jack Ochs, announced that sanitation of the water will definitely determine whether or not there will be a pool here. Samples of the water, taken from the natural pond by the warehouses, were sent to chemists to be analyzed for safety. If an okay is passed then further work will be carried out. One job stated to be absolutely necessary if swimming is going to take place is that the Lake bottom will have to be cleared of certain underwater growths.

SALEM DOWNS SCRUBS, CLARKSBURG FOR TITLE

ALL-STAR TO TACKLE CHAMPS SUNDAY

Salem Senators are champions this morning after they massacred Clarksburg last night 15 to 2 for their seventh straight win and the league title. The Senators did the job convincingly as the night before they ran over the Scrubs 9-1 to keep undefeated for the title race.

The contest last night started out as a pitchers battle, but errors and walks by the Clarksburg team soon had the champs running madly around the bases, and all fifteen runs had crossed the plate before the Californians could score.

LEAGUE STANDINGS Men's

	W	L
Salem	7	0
Clarksburg	4	2
Scrubs	4	2
Olympia	2	1
Oregonians	2	2
Bellingham	2	4
Fighting 17th	1	5
Longview	0	6

A walk, two post balls, a high fly, and a home run in the last half of the sixth made the only two runs for the losers.

Thursday night pitcher Ed Yada held the Scrubs to one hit and a run.

Sunday afternoon at 3 o'clock, Salem takes on the California All Stars on field 5.

GOLF

Enthusiasm marked the first golf meeting which was held last Wednesday evening. All twelve persons who attended quickly volunteered to do all they could toward getting the project started.

Following a short discussion, the group walked to the northern end of the colony, where the proposed site for a course is situated. They decided there that the first thing needed was a mower to cut the grass down, and actual work will be held up until some sort of grass-cutter is available.

Their muscles may be a little stiff, and their batting eyes a little weak, but with a whoop-and-a-holler the issei's are going to show their stuff this Sunday.

SUMO

In preparation for the big July 4 tournament, Sumoists started their training last Sunday. The turnouts are being held on the sand pit which is situated on the fire break in front of the colony store.

Large crowds are present at every practice session, and from all appearances there is plenty of interest in this sport. All persons who would like to participate are urged to come out.

Deadline for entries in the new softball leagues was set at Tuesday, June 30.

All men's, boys', and girls' teams who have not entered yet must do so in building #1808 on or before that date.

Both team managers and captains must register for the equid and they must bring the list of players, preference of two umpires, and address where they can be reached.

TENNIS

A second meeting for persons interested in tennis will be held in building #1408 at 6:30 p.m., Monday, June 29.

HARDBALL

All teams interested in playing hardball are asked to sign up at the Recreation Center #1808.
