

CATY VY DORE CERSUS **国 塚 脈 匪 内** EREDA?

At the stroke of midnight last Fridey, 130 ghostlike figures armed with pencils and papers spread out through the whole city of Tule Lake to take the census of every resident.

From apartment to apartment, barrack to barfack, the census taker methodically covered his territory. Unlike Elmer Blurp and his "I hope there's nobody home," I hope, hope," the consus takers knocked on every door and interviewed the occupants. Lights went on and off as the census staff went from apartment to apartment.

Some individuals stayed up, but most of the populace were fast asleep by, prior to his arrival here midnight. The staff had some difficulty in arousthe whole the procedure went along quite smoothly, stated S. Friedman, hous-

FARM PROJECT: BARLEY ONIONS AND POTATOES

CHIEF PRODUCTS

Barley, potatoes, and onions, with 584,837, and 208.5 acres respectively, are the chief products of the Tule Lake project. Among other foodstuffs grown on the 2000 acres of farmland are carrots, lettuce, daikon, turnips, peas, beets, and cabhages.

There are at present 400 persons working on the farm. No expansive plans for winter has been as yet made, but normal preparations have been made.

Whether or not there will be a surplus, largely depends on the weather. fully organized, surplus sufficient for exchanges is expected, said Fastman of the farm project.

-THESPANS TO MEET

There will be a short organizational meeting of all persons who have signed up for dramatics in Recreation Hall #1908 this evening beginning at 6:30 p.m.

VIOLETS, BELLEVUE VVIN

In the games played Sunday the Violets cutscored the Oregonians 17-11, Bollovus drubbod the Inais 17-5, Holland annihilated the Vancouver Rocks 14-2, and Marysville and Lauris battled to a 6-6 tie.

The opening 9 a.m. game saw the Oregonians hold the slugging Violets to a 6 all tie until the fetal fourth when the winners tallied nine runs to ice the game. That is used three chuckers in trying to sten bellvue's batting attack, but lack of experience spelled down for the Californians. Jumping to a 5

NEW LEAGUE

Season opener for the Tule Lake hardball league composed of 4 teams from Pinedale is scheduled for August 3 with the White River Cubs pitted against the Auburn A. G. On the following day the other two entries, Tacoma Busseis and the Auburn A. C. 111 meet.

Although the relative strength of the clubs are unknown as yet, reports indicate that the teams are quite evenly matched. Geme time vill be 6:15

p.m.

WESTERN LOOP

With the fourth round of the Western League in the pages of Tule Lake softball history, the Tulean Schots ranked in first place by ene-half game with four victories against ne defeats. Closely on their heels are the Deltan Pops who also maintain a clean slate but have only wen three contests.

This coming Tuesday, August 4, the Schots face their acid test when they cross buts with the ance-beaten Hit and Runs. Although mosed but by the Pops last week, the Hit and Runs are highly favored.

In other schodulod games the two Marysville entries, Rockies and Starlettes, clash, and the Fighting Rocs will try for their first win against the Furies.

run lead in the first inning the Holland nine was nover beeded for the ontire fraces. Two favored terms of the American league, Marysville and Lions played to a Rod thrilling tio in the night cap before a huge cruvid. G. Nakao, vilo cano through with a porfoct day at bat again with three for three, was the leading batsucn for the game. He has a 1.000 pet. average in 2 games.

SIGN-UP

Any softball tooms wishing to onter the new Tule Lake League (Class A, B. cr Pee Wee) are asked to sign up at the Recreation Hall 4808 by August 5.

SOCKETS LEAD

Last Tuosday night the Sockets, n.t given a chance at the beginning of the season, cane thru with a 21-8 score from the Marysville 1's.

Although lack of practice accounted for a large number of talks, the score was kept down to a respectable level.

The Seekots will meet their acid test when they cross buts with the fighting Hit and Runs. Although need cut by the Pops Last week, the Hit and Runs will be highly fevered.

Betteries: Sockets: H. Kimure and U. Kimura Me'villo: Murete-Kaveneto

Scriething new has been added. And it isn't latekin. It's a different type of a column, or we hope that it will be. It will be solely for the women, from the doll size to the lady-in-vaiting, be she l8 cr 81.

Centributions, helpful hints, advice, anything in which members of the feminine category, and even advice from the brain and brawn of the masculine group will be released to rake this column exclusively y ur interest and mine.

However, this is not a grudge or dirt column. Complaints are welcomed only with solutions suggested for improvement.

If Turny in the alloy dosn't like 'red fingeracil polish --- it's of interest to worn, so let Tormy give his speech. If it lacks good on paper, lottor boxes are provided at the contoons for those who went to shout whispor their i minds. Each will be given due consideration. If Eni of Alaska doesn't like the particular goo; Jo-Jo and conrades, pour on their coiffure lot Eni spoak her piece, and maybe wo can help onch a harmanious compromise. :

If Meechan has found a way to cancuflage her bouddir into a living roun, come, came, out with it. That's occnomy and beauty as well.

* * * * * *

We all can't afford to pick up every magazine that will give us ideas. Instead let originality, common sense and imagination guide us and imagination guide us and imagine us to better graphing, better community living and appreciative enjoyment. We'll make the best of what we've get and onjoy it too. If can happen here. If is happening.

ADULT EDUCATION

VARIED COURSES OFFERED

Educational opportunities at Tule Lake are unlimited, with varied subjects being offered by the Adult Education department.

Many classes for adults are already under way and new ones are being opened as rapidly as space and seating arrangements can be secured. Among new additions to the curriculum are a floriculture class, one in American history and backgrounds and several mathematics courses.

Classes in elementary algebra, plane geometry and trigonometry will also begin next week. Students are requested to bring paper and pencils. It is hoped that text books will be available from Modoc Adult High school for lean to Project students.

American History and Backgrounds for older adults (issei) will be taught by Sumio Koga, formerly of the University of California. All issei interested in this subject are invited to be present on Tuesday next, Aug. 4, at 9 a.m. in #3408.

Classes in Beginners English for Foreign-born will meet regularly on Mon., Wed., and Fri. from 9-11 a.m. in #2408. Intermediate English classes for people who speak some English will meet on Tues., Thurs. and Sat. from 9-11 a.m. in #2408. Special lessons fitted to life on the Project are being prepared for these classes. The teachers are Ruby Sakoda and Mrs. T. Yoshida.

The schedule of Adult Education classes is as follows:

THE TULE LAKE SCENE:

ACROSS THE DITCH 15

BOLATED ALASKA

Remote from the "mainland" and secure in the Keling they are exclusive, a beaceful contingent of colonists have established themselves away from the noise and humming activities of a busy city.

These colonists arrived from Pinedale on July 19 and consolidated their position by occupying the barracks on the other side of the irrigation ditch.

Day by day the foothold was enlarged. Today the whole area comprising Blocks 56 to 59 has been unofficially labeled "Alaska" because of its distant location, and its separation from the rest of the Project by the ditch.

The name is now being rapidly popularized. Such conversations as "I'm going home to Alaska," or, "So you're from Alaska", are becoming more frequent.

In retaination, the Alaska residents claim their blocks to be the exclusive residential district, separated from the "common people" by the river as yet unnamed.

Residents living a t the other extreme end which includes blocks in Ward. VII, prefer to call their area, the exclusive Country Club district.

The large hill located at the extreme eastern end of the City has been named Abalone mountain because of the close resemblance of its dome to

an abalone.

Other colorful "monickers," no doubt, will appour as Tule Lake residents exercise their imagination T.N.

FOUND: A LAKE

AT TULE LAKE

Because Tule Lake has lake, M. Sakaguchi of 717-B filled soup cans with water and called the results "Tule Lake." This "lake" is at the Shasta (a foot of Mt. jagged piece of white chalk-board). Nearby is a miniature camp fire (a Dixie cup hanging over a pile of wood). Troos are supplemented by sprouting vogetables.

FLORICULTURE CLASS OPENS

7-10 p.m.

A course in floriculture will begin next Monday. Various phases of the florist industry will be studied, in clu ding growing (soil and chemical culture), wholesaling and retailing. Special stress will be given to growhouse construction, production and economics.

The teacher will be Yeshimi Shibata, former operator of the Mt. Eden Nursery Co., one of the largest rose-growing establishments in the San Francisco bay region. He is a member of Pi Alpha Xi, national floriculture honorary society. Shibata was offered a scholarship at Ohio State University by Roses Inc., a national rose-growing society.

Students registering should preferably be high school graduates, Shibata said. Registration will take place Monday at #4208.

40 PHONES IN CITY

"Operator, I want Main 5589." "Operator, you gave me the wrong number. ..Can I have my nickel back."

To some 15020 Tulo Lake residents those familiar words are now a thing of the past. For there are only 40 telephones in use here, and these are installed only in places vitally nocessary to the administra-

tive duties of the city.

The largest concentration of phones is located in the administration building which has 14 phones. The rest are distributed among hospitals, block manager's office, fire stations, and in various offices scattered throughout the grounds such as in THE DISPATCH Office which is 1221.
