

DISPATCH TO PUBLISH JAPANESE SECTION TUESDAYS, THURSDAYS, AND SATURDAYS

Recognizing the need for some authoritative news in the Japanese language, and for the publication of bulletins and information that directly concern the 6,000 issei residents of this Project, THE TULEAN DISPATCH will publish one whole page of news and announcements in the Japanese language in its regular columns on Tuesday, Thursday and Saturday of each week. Look for it!

JOHN D. COOK

Chief, Information Dept.

PERMANENT CITY CHARTER PLANNED

Drawing-up of the permanent city charter for self-government within the Colony is nearing completion according to Tom Yego, temporary chairman of the committee on permanent City Council.

This plan, when completed, will be submitted to the director of the project and then with the approval of the City's resident will go into effect. It will determine what powers the city would have.

The proposal calls for 64 councilmen representing each block. Such a person must be a citizen over 21 years of age. He will serve for a period of six months. Four unauthorized absences from meetings would constitute a vacancy.

The offices created by the system would be a president, vice-president, secretary and treasurer of the council. It would provide for a paid secretary and a paid stenographic secretary.

The judicial and arbitration commissions are being worked on currently.

Plans for a permanent community council are being formulated by a committee of 10 including: Tom Uyeno, Ward I; Roy Miura, Ward II; Yoneo Suzuki, Ward III; Coffee Oshima, Ward IV; Frank Nakamura, Ward V; Tom Yego, Ward VI (temporary chairman); Kiyoshi Yumibe,

Ward VII; attorneys Walter T. Tsukamoto, Henry Taketa and Kenji Ito.

NURSING CLASSES INAUGURATED

To extend the services of the hospital into the community in times of special need, training classes in practical nursing are being inaugurated by the Adult Education Department under the sponsorship of Dr. B. Carson, Project chief medical officer. Mrs. May Rudd, registered nurse, is in charge. Classes will meet daily Monday through Friday mornings at the hospital.

Enrollment in any one section will be limited to twenty. Three sections are so far scheduled to meet from 8:15 to 9:15, from 9:20 to 10:20, and from 10:25 to 11:25 respectively. On completion of thirty hours' instruction, successful students will receive Red Cross certificates and will have their names placed on Dr. Carson's registry

BLOCK MANAGERS TO HANDLE COAL SITUATION

J.O. Hayes, assistant project director, announced at a meeting of block managers that due to the inability of the Placement office to provide coal workers, it will become necessary for each block to work with the coal delivery.

It was suggested that all male workers perform in rotation so that all may share equally. Those working on the coal shift will receive work credit and will not be required to report for their normal work the following day. It was emphasized that blocks failing to provide three workers will receive no coal deliveries.

Block managers who were first to favor this plan will work Wednesday night. Clothing for this duty will be provided through block managers.

Women are also asked to co-operate by laundering coal workers' clothing from day to day.

NIGHT MESS WORKERS WANTED

Request for night shift workers for mess hall 1820 was issued by the Placement Bureau.

There is immediate need for 14 waiters and waitresses; one chief cook, and two kitchen helpers. The working hours are from 7 p.m. to 12 midnight.

NEW CANTEEN HOURS

New canteen hours were announced today by the Community Enterprises management: 9 a.m. to 12 noon, and 1 to 5 p.m.

of home nurses available for employment in the community.

If you are in good health, between the ages of 25 and 40, and interested in nursing, you are invited to join one of these classes. It is not too late to enroll if you act promptly.

GLAMOUR

Proving that residents of Tule Lake are thoroughly imbued with customs and things Americana, this week finds the inhabitants of the City merrily and busily engaged in the pleasant occupation of glorifying the nisei girl. Ziegfield could have done no better.

A pretty face has changed the course of history, in many cases. That a pretty face exerts as much influence among the Tuleans was evidenced by the vast crowd that swarmed to worship at the shrine of beauty last Monday night.

We join with the rest of the appreciative males in putting our stamp of enthusiastic approval on the delightful business of glamourizing the nisei miss. We like to ogle a pretty face as much as the next guy. A bit of color, "sugar and spice and everything nice" and the sight of 23 pretty faces has done wonders in enlivening the spirit of the City.

As a morale builder, the Queen contest can't be beat. And we know that the rest of the boys will unanimously voice the same sentiments. G.T.I.

ELECTION DAY

Tulean Intermezzo

EUGENE OKADA

"She's pretty all right, but god, what lousy personality." "She ain't exactly pretty but she's cute tho." "That gal----- um mmm." "How'd that "thing" get in?"

Such is the talk one hears as the queen hits its peak and the girls become THE talk of the town.

Posters and banners of all sizes and colors are conspicuously displayed throughout the community. Cleverly worded button-a-ires are worn by the boosters. Even the cars and trucks carry the names of the driver's favorite choice or the choice of his "influence". Dances are sponsored by boosters with refreshments and entertainment galore. Opponents' posters are torn down. The girls are introduced to the public by their managers. Flowery oration trickles through one's ears day in and day out.

The semi-final will have whittled down the twenty-odd contestants into seven. A few of the girls seem a cinch to win but that last minute campaign spurt put on by the rest may upset the apple cart.

One vote per apartment, one vote per bachelor, a total of five thousand votes are anticipated. Family members have it out to have their choice represented in the final. Bachelors are in a state of confusion as to which promise to keep.

What a heated contest this is! The pride and honor of the contestants are at stake. Will those who lose take it good-naturedly? Will there be any grievances or grudges? How will the winner's ego be affected?

Let us hope that there will be no ill feelings and let us do our part in making this election fair and square, especially in the finals. This is all in fun, any way! E.O.

WARDENS TO DANCE TOMORROW

Dining and dancing, instead of usual patrolling duties, is the order of the evening for the City's W.R.A. Warden and guests tomorrow night at #720.

A get-together with refreshments will initiate the activities starting from 7 p.m. Guest speakers along with Masako Yuki Yego, warden's representatives, will address the group. Tom Kusako will be master of ceremonies.

Royal Hawaiians will furnish the music, with George Kikuchi and Ray Nakamoto billed as entertainers. Takeo Matsumoto and Lillian Akiya are preparing the refreshments. Decorations are in charge of Marguerite Iguchi.

Guests invited thus far are Director and Mrs. Elmer L. Shirrell, Dr. and Mrs. Harold Jacoby, Mr. and Mrs. Peter Kristovich, Miss Margaret Graham and Fire Chief Ernest Rhodes.

ENGLISH CLASSES FOR KIBEI

Many inquiries have come to the office from those who are suffering from physical handicaps, and also from kibeis who are wondering what can be done about classes in English.

Soon after the regular school session has opened, provision will be made for setting up classes to accommodate all physically handicapped children of school age. Opportunities are already provided through Adult Education classes for kibeis to learn English.

Those interested in such classes, please contact the Reverend Isaac Inouye, #6902-B, who will be able to offer you suggestions about this matter.

KENNETH M. HARKNESS

The second transfer from Santa Anita to Cody, Wyo. started Sunday.

COAL WORKERS WANTED:

YOU CAN HELP SOMEONE FROM BEING COLD THIS WINTER

The coal contract for this Project for this winter has been awarded by the Quartermaster Corps of the United States Army and amounts to 57,600 tons. Deliveries are made in carloadings, weighing approximately forty tons each. Anticipating delays in rail traffic, we should receive as much of this as possible during the next two or three months. If we receive 25,000 tons at the rate of ten cars a day, this alone will require sixty days to handle.

HAY FEVER

ADDICTS WARNED

Potential cases of hay fever are being fostered by those who are transplanting Russian thistles into their homes, unaware of its effects. When in bloom these plants are one of the major causes of hay fever allergies.

Colonists are strongly urged to dispose of those thistles that they have transferred into their gardens and to destroy those that are growing wild.

WARD 7 NOW "FREE ZONE"

Joining as a "free zone", Ward Seven for the first time since being occupied is cleared from all quarantine regulations. The blocks released from chickenpox restrictions are #68, #69, and #70.

Block 54 will still remain under the quarantine ruling. Plans are to post warning cards at residents barracks and release the area from the order. Only those 16 years of age and under are affected by the order.

NEW HOSPITAL ADDITION NOW UNDER CONSTRUCTION

A new addition to the base hospital will be the out-patient clinic now under construction. Expected to be completed by Oct. 1, the building will include general medicine, surgery, a dental clinic, a new pharmacy and in general assist in taking care of out-patient problems.

The present space

Presently it is somewhat of a chore to handle two cars per day. In another month the Project will be burning from three to four cars a day. Due to certain critical material shortages, we cannot install an elaborate mechanical unloading device. Even were this possible, it no doubt will develop that much of the coal will be received in box cars and must, therefore, of necessity be handled manually.

The Transportation and Supply Division is looking for coal workers, and if you are unemployed, you can help speed the delivery of coal by reporting to the Placement Section for assignment as a coal worker. The only deficiency that prevents the handling of ten cars of coal per day is that of manpower, and if you are unemployed at this time, a job is waiting for you in this activity.

J.O. HAYES
Acting Asst. Project Dir.
YOU CAN KEEP SOMEONE FROM BEING COLD THIS WINTER.

being used by the out-patient clinic will be subdivided into doctors and orderlies quarters, besides other uses.

Because of A.A.J. priorities, the new building is being made possible by the U.S. Army who are supplying the material. Materials required for building a hospital are not obtainable by W. R. A.

NOTARY PUBLIC

...offices will be open tonight from 7 p.m. in #1608. Mrs. Marvin Thomas, project's notary public, will be presented.

"GLENN MILLER SHOW"

...participants, a practice is set for Thursday at #1908 from 7:30 p.m.

FRED L. CONNER,

...senior administrative officer, is leaving for San Francisco for several days.

ROSCOE BELL,

...chief of agriculture for the Delta Utah Project, is here for a few days' visit as a trainee.

R. S. DAVIDSON,

...agricultural production manager, arrived from San Francisco as a guest of the administration.

DR. ROBERT REDFIELD,

...Dean of Social Science at the University of Chicago, is here as a consultant to the Division of Community Service of Washington D. C.

THE LITTLE THEATER

...group is meeting tonight from 7:00 p.m. in #1908-C.

RALPH E. PECK,

...chief steward of dining management, announces the personnel dining hall will be enlarged to accommodate the increase in the administrative staff.

JOHN ESSENE,

...associate enterprise superintendent at the Minidoka Project, was a guest of the Administration last week.

Essene was formerly of the Northwest Cooperative Auditing Service at Walla Walla, Wash. He graduated from U.C.L.A. where he was active in student co-operatives.

SAMUEL FRIEDMAN,

...superintendent for housing, stated approximately 300 have applied for work in sugar beet fields.

Those applying individually, and wishing to form a group may furnish Mr. Friedman at #801 the number and names of those in the group.

BUDDHIST SERVICES

...Thursday 7:30 p.m. in #5008.

CLASS "A" CHAMPS TO MEET SALEM IN PLAY-OFF

Tacoma Truckers, Class A Champs, will get a chance to knock down the Salem Senators, American League titlists and winner of the softball "World Series," this coming Friday, September 4 when the two teams meet in the first play-off game.

SEATTLE LOSES TWICE IN CLASS "B" GAMES

Seattle was spanked twice and the Gaels once in Class B Hardball games over the week-end.

Mountainers shut-out the Seattle team 7 to 0 in the first game, and Vancouver slapped a 11-3 count against them on Monday.

Eight walks and one hit accounted for eight runs in three innings to give the Deltans a 8-3 victory over the Gaels.

WHITE RIVER BLASTED BY HOLLAND 13-11

A seven run blast in the first inning spelled defeat for White River last Sunday as Holland won an upset victory 13-11.

Although the Rivemen tried desperately to overcome the lead, the Hollanders managed to score just enough to keep ahead.

ALL-STARS 10, OAK PARK 2

California All-Stars won their first National League hardball contest Sunday when they trounced the Oak Park nine 10 to 2.

Odds favor the Senators to take the two out of three series, but since the comparative power of the two teams are not definitely known there is a good chance for anything to happen.

First game will be played on field 1, the second on Tuesday, September 8 on field 7, and if a third game is necessary it will be played September 10 on field 1.

Game time is 6:45 p.m. for all contests with the Truckers responsible for the equipment in the first and third tusseles, and Salem for the second.

OKADA HURLS ONE HITTER, ROCKS WIN

Pitcher Ed Okada of the Rocks found the cellar-dwelling Inais very hospitable as he hurled a one hit 6 to 0 victory, against them Sunday.

A hit by Enkoji in the opening frame robbed him of a no-hit no-run game, and the only other man to reach base was Osuita who received the only two walks that Okada issued.

FIRST "WORLD SERIES" FLOP

There was a softball diamond, a crowd, a nice cool evening, and the Salem team. In fact, everything was all set for an exciting contest, but there was one thing missing--the Yogores.

Yes, they stuck to their word and didn't show up, at least not ready to play a game.

So marked an unhappy end to the first softball "world series."

Salem Senators, American League titlists, win the series in taking two straight games from the Yogores, National League Champions, but it seems strange that a forfeit should loom up in a play-off.

There's a saying which goes, "There is always the first time," and this was really the FIRST TIME--first season, first play-off series, and first play-off forfeit. Let's hope that it's the last time that a situation like this will come up.
