

Daily Tulean Dispatch

TULE LAKE COLONY

Vol. III No. 94

Newell, California

Wed., Nov. 4, 1942

PILFERING COLONISTS SUBJECT TO FEDERAL IMPRISONMENT

Special detectives have been assigned to the freight yards to parole that district by the railroad company as colonists have repeatedly pilfered goods from the freight cars.

Not only have goods which were supposed to be delivered to the project been stolen, but items which were enroute to other outside points.

Workers are again cautioned to not break seals on any package as those found doing so will be turned over to federal authorities and not the WRA.

Any person found guilty on the charges of breaking seals or taking property are subject to be imprisoned in Federal jails.

DELEGATES TO SALT LAKE CITY CONCLAVE CHOSEN

Ted Nakamura and Walter Tsukamoto were selected to represent the Tule Lake Project at a special J.A.C.L. conference to be held at Salt Lake City, it was decided at the local J.A.C.L. meeting held last Friday.

Nakamura is one of the original founders of the Tacoma, Washington Chapter. Tsukamoto is a former president of the national body.

The five day conference will open on November 17. Delegates from the nine other centers and the National WRA Director Dillon Myer are expected to be present.

Representatives from all different Chapters were in favor of forming a single chapter in the colony.

The old chapters decided to make detailed plans in their separate meetings to be held before the next central meeting slated for November 12.

PLANNING BOARD IS ORGANIZED

With the planning board only a proposed organization until last Friday, the group formally met in their inaugural meeting and chose Kihei Ikeda temporary chairman and Hideo Eto temporary secretary.

Fifty-two representatives were present as delegates from their respective blocks.

Don Elberson spoke representing the WRA and stated that the organization is highly regarded and need not be afraid of expressing their opinion. Rev. Daisuke Kitagawa interpreted the speech.

A committee to formulate the by-laws for the organization with Masachi Yamamoto, Kihei Ikeda, Isamu Nakamura, Marakami Kanryo, Y. Tomura, Kohachiro Sugimoto and Matsusaburo Kuki as committee-men started the ball rolling.

DOMESTIC WORK AVAILABLE OUTSIDE

Outside domestic employment for experienced girls are now available, disclosed Miss Clara Bogorad.

Couples, single girls and groups of two girls are now in demand in the midwestern states.

As negotiations for travel permits and clearance take quite a long time, all applicants are urged to contact the department as soon as possible.

Anyone interested in such opportunities should contact Miss Shinozaki at the administration building for appointments.

PLACER JACL BUSSEI TO HOLD MEETING

Special meeting of the Placer JACL will be held at #4720 tonight, Nov. 4, from 7:30 p.m. All former members are requested to attend this meeting.

Y.B.A. Board of Directors will hold an important meeting tomorrow from 7:00 p.m. at #1407-D. As final plans for ward organization will be discussed, all directors are urged to attend.

IMMUNIZATION IS SET FOR THURS.

Immunization program of the Preventative Clinic will be held in the Outpatient building of the Base Hospital from 1 to 3 p.m. on Thursday afternoon, Nov. 5.

There will be cancellation of all Eye, Ear, Nose and Throat Clinic appointments for Nov. 5, 6 and 7th. This is necessary since a major operative clinic under the direction of Dr. J. W. Bettman, ophthalmologist of the Stanford University Hospital, has been scheduled for those days.

AUGUST PAYCHECKS

Employees of the Motor Pool, Garage, Warehouse and Coal Crew may get their August check at the office of transportation and supply.

POULTRY PLANT WILL HOUSE 40,000 HENS

Proposed 40,000 hens capacity poultry plant, to be located near the hog farm area, has taken big strides towards completion with the erection of buildings in the brooder unit. A 200 foot brooder house has gone up and is fully equipped to accommodate some 5000 chicks. Foundation and floorings for the second brooder house of equal capacity has been completed and before long, another structure will be erected. The houses are of approved type, technically adapted to the climatic conditions of the greater basin area.

Facing the 10,000 capacity chick-growing plant to its southwest, the flooring construction work of the warehouse building is in the final stages of completion.

Flanking the central unit to the north and south will be 20 laying houses, size 24 by 200 feet each with a capacity of 1500 to 2000 layers. The main egg production activity will center in these units.

Harry Makino heads the staff of 35 consisting of experienced poultrymen, college technical men and former vocational agricultural operators. The proposed plant when completed will rate the distinction of being a major poultry production center of northern California.

OUTSIDE WORK

A farm hand is wanted for year around work at Weiser, Idaho. Anyone interested apply at the Placement Office.

TOGASAKI IS FATHER OF FAMOUS FAMILY

How would you like to be the father of six daughters engaged in the medical profession; three practicing medics, two public health nurses, and the other a registered nurse?

Striding down the corridor of the Base hospital in white, immaculate gowns are Drs. Kazuo and Yoshiye Togasaki, recent additions to the medical staff.

Mrs. Chiyo Yamasaki, public health nurse, is also here.

Father Togasaki's nine children, all college

COLONISTS WARNED

AGAINST FIRE

Obsolescence of the adage "Thence came the winter that curved the fires" is proven by observing conditions in the barracks warranting grave fire hazards. All heaters go full blast on cold days. The heat radiation is complete, leaving the whole building in an inviting stage for fires--a virtual "tinder box"!

Then the gravest immediate hazards are the coal heaters. All stoves must have ample clearance of 3 feet from all walls, partitions and blinds. Chimney sections should be tightly fitted and aligned. Since coal smoke gives off a large amount of soot, chimneys and ash trays should be cleaned out with regularity. Inflammable trash should be cleared completely in the area adjacent to the heater. A daily habit of regular inspection should be cultivated.

graduates, are now scattered to all corners of the globe. Japan, Hawaii, Utah, Arizona, Massachusetts claim at least one Togasaki.

Dr. Toru Togasaki, the other practitioner, is presently attached to the Poston center medical staff. Her two brothers followed a business career.

Kazuo received her M. D. at the Women's Medical College in Philadelphia and Yoshiye, from the John Hopkins University in Baltimore. Chiyo received her sheepskin at the University of California.

As I mingle with the crowd around the warm stove in Canteen #1, occasionally I listen in on a conversation among young boys saying, "Gee, but that old man here sure works hard in keeping the place clean." True to words, I see a man not an inch over 5 feet, slightly stooped, and wearing his ever-faithful dilapidated jungle hat, going around sweeping the floor and saying in broken English, "Excuse please, just a minute."

Watching his untiring effort in keeping the place clean, in spite of the large crowd that frequents this popular store, leaves me with an impression that to him age is of no handicap toward contributing to the welfare of the community.

One day, observing his usual industrious figure, I witnessed an incident which I will not forget for a long time. A certain club, after sponsoring a dance, forgot to clean up the rubbish which was strewn about the building adjacent to the canteen. Seeing this, the old man went beyond the call of his specific duty and swept the place clean.

A member of the responsible party for the clean up, appreciated the janitor's effort on this matter; digging down into his none too exuberant pocket bought a nickel cigar and gave it to the man. Upon receiving this small token of appreciation, with cloudy eyes he said, "Thank you for cigar, boy, me more happy than get 100 dollar bill."

GRAIN ELEVATORS

Looming spectacularly at the foot of North Castle Rock Mountain, are the seven completed grain elevators. Each elevator is two stories high and capable of storing 3000 bushels, roughly 1500 sacks. Nine more are scheduled to go up.

HUNGRY TULEANS DEVOUR 400 LBS. 'BURGERS AT FESTIVAL

Typically American in the sense that they love a carnival, local colonists turned out en masse to participate in the Harvest Festival sponsored by the recreation department Saturday.

Hamburger hungry Tuleans stormed the two concessions that the Harvest Festival offered to the carnival minded public Saturday and when the smoke had cleared, the damage was listed as follows: A cute 400 pounds of hamburger, 125 pounds of onions, 80 leaves of bread, 165 dozen buns, seven gallons of mustard, and five gallons of relish had disappeared into the stomachs of the local colonists.

Many hungry customers were still milling around when first the block #70 stand ran out and then the Pensioners followed.

RAFFLE WINNERS ARE REVEALED

R. Sanihiro, 1115-A, received a Silvertone radio for winning the first prize in the Harvest Festival raffle. Second prize, a floor lamp, went to T. Kuno. Third prize, a clock, was awarded to Alice Ito.

Fourth prize, a circle mirror, was claimed by Mary Ono. Fifth award, a permanent wave, went to James Hayakawa.

Raffle tickets were sold to the public for five cents each.

INSPECT DECORATIONS

All improvised lamp shades, used extensively at dances to subduing lights, are hereafter condemned. Only tested types, as approved by safety officials will be allowed. Inflammable materials, lack of proper globe clearance and ventilation in the majority of homemade shades were reasons for the prohibition. It is now necessary to have a fire safety inspector check over the decoration plans for social gatherings.

HIYAMA-ABE COUPLE WINS FIRST PRIZE

Dressed in beautiful Spanish costumes, Frank Hiyama and Alice Abe won first prize at the #4818 Masquerade Ball. They were awarded an overnight case. Appearing as a woman, Tak Ota at #7218 was announced as the "best dressed man". He won a carpenter plane as first prize.

At #4818, other awards were made to Sachiko Higashi and Yoshitoshi Sakumura, 2nd prize of one dozen roses; and Kanji Nishijima and Penelope Yabe, 3rd prize of a season ticket to the community dances.

At #7218, 2nd prize of dozen roses went to Sumi Sakada and Alice Inouye who came dressed as a negro couple and 3rd prize was tied between Joe Matsumani and Shiz Tamaki and Bill Doi and Peggy Osasa.

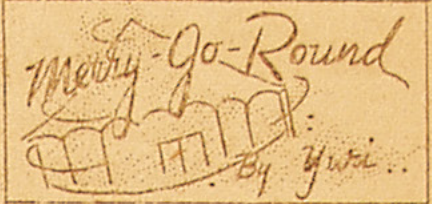

Extra copies of the November issue of THE DISPATCH MAGAZINE are available at the press office at #1608 for mailing.

INSTRUMENTS ARE RECEIVED AT HIGH

High school music department received a piano, cello, string bass, drum set and tuba this week with enough instrumental and vocal music to keep the young musicians happy for some time.

Following courses are being offered: vocal, which includes boys' and girls' glee clubs, mixed chorus and special groups; theory, which includes elements of music, history, harmony, and appreciation; instrumental, which includes junior and senior orchestra and band, ensembles, twirling, and class lessons.

Interesting programs, concerts, and recitals are being planned, and those who wish to participate should enroll immediately.

EYE WITNESSING

...at the "International Cabaret Premier" Friday evening were Mr. and Mrs. Carl Bussell and Mr. and Mrs. Frank Smith, four-soning it. And did Mr. Smith display a beautiful deep blush when "Carmen Miranda" came to his table and tickled his chin, almost sitting on his lap. Saw Mr. and Mrs. Roy Clark and Mr. and Mrs. Joe Fujii, another foursome party, getting a big bang out of the show, and also Mr. and Mrs. Joe Hayes greeting friends. Spotted the glamorous Judy Nichols with Hin Davies also in the party were Jack Donovan, Eleanor Downes and Mrs. Stubbs.

ON A FOUR DAY

...visit here is Philip Webster, acting assistant regional director. He arrived Monday morning.

UNIQUE BIDS

...in the form of script books are now being distributed to the "Script Store Swing" which is scheduled for Thursday evening. A gala night is promised by the canteeners of store No. 5.

With Sam Aoyama's "Orchestra" setting the pace and decorations and refreshments in an "out of the ordinary" from Ballroom #1620 will be the scene of the ball.

Patrons and patronesses for the evening will be the Messrs and Mesdames Kendall Smith, Martin Akiyama, Eddie Hayashi, Sunio Miyamoto and Lawrence Nakano.

BAR BELL HOP

...which was sponsored recently was really a "lalapalooza". Multi-colored lighting effects, delightful refreshments, super colossal decorations scintillating music--all night took one's breath away. Seems Bar Bell boys are equally adept in both herculean activities and in sponsoring a classy dance.

THE OTHER Side..

BY KEN HAYASHI

It reminded us of the good ol' days—did the Harvest Festival last Saturday... We were brought back to South Tacoma and 12th and L st. back home, where traveling carnivals stopped for a week every year. In those days, a bunch of us "rowdies" used to mill around the concessions, buying hamburgers, heckling the phoney "rasslers" and gaping at the HOOTCHY HOOTCHY gals... ah, that was life... Our carnival here lacked some of the "spice" of our home town affairs. But the atmosphere was the same... Loud mouthed concession hawkers, the milling crowd, the groups of pretty girls and the boys ogling the fluffs, the smell of frying hamburger... it gets ya down. We

were one of the lucky "First Nighters" at the World Premiere of the Cabaret International... We enjoyed the program immensely... It felt good to be a part of the club atmosphere. Individual tables, subdued darkness and the colored spotlight on the entertainers... It was very easy to look at the likes of Nancy Menda, Edna Sakamoto, Michiko Joe, Laura Fujiye and others... Vocalists Martha Fukami, Riki Matsufuji and Art Kozono all did fine... Yukio Shimoda was a show in himself or should we say herself... The tri-state co-eds such as Lillian Abe, Chizuko Hayashi, Bette Sato, Tazuko Washino and host of others were very decorative usherettes... Not bad, we repeat, not bad at all...

Reports

from those who have visited the Minidoka project are all good. This Idaho center is really super, according to these boys.

KEEP THE WATER BOILING

TULEAN DISPATCH

HAWAIIAN TERMITES WIN AGAIN; OVER N.W. ALL-STARS HATA, KURAHARA SCORE TWICE IN SECOND HALF FOR 13-0 VICTORY

BY JOBO MAKAMURA

Hawaiian Termites grid squad has yet to meet a foe who can score on them, let alone hold them to a tie.

Chalking up a second victory over the heavier Northwest All-Stars, a remarkable combination of super-speedsters, Yeshini Hata, Yulene Takai, Hid Kagawa, and Janus Kurahara, required little deception to roll up a score of 13 to 0 against the lumbering Northwesters.

Big men from the Northwest found out that sheer brute force alone cannot win a ball game, but that it would take a well-organized and well-drilled squad having co-ordinated plays, both defensively and offensively, to contend with the Termites. Islanders are too smooth an outfit to be taken lightly.

All-Stars managed to hold the slippery Termites scoreless in the first half, but the Hawaiians were knocking loudly on the northwesterners goal line. Only a fumble on the All-Star's door step averted a touchdown after the ball was moved all the way down the field on a sustained march.

In the second half, the first six points was set up by center Mas Tambara who retrieved the ball on the Termite's 40 yard line and raced down to the five. From there fleet-footed Hata pushed it across after three

trys. The final score was made by Janus Kurahara, who side-stepped 15 yards down the side lines to the end zone standing up.

All-Stars' Bob Okumura carried the burden of the Northwest attack and piled plenty of yardage on line plunges.

In the final period, the Termites inserted third string subs Bill Matsumoto and Art Morinitsu who gave a brilliant 3 minute performance as guards.

A huge crowd of over 1000 football fans lined the field from one end to the other to witness the hard-fought regulation game.
