AMERICANISM FOR YOUTHS STRESSED

Los Angeles Man Argues Second Generation Can Be True To Their Country And Parents At Same Time

INSTANCES OF FAIRNESS SHOWN

By Jack Kimoto

(The attitude, policy and program of the second generation in public affairs in America is discussed by Jack Kimoto of Los Angeles)

It has been a great pleasure to me to read the following words in the first open statement of Dr. Horii...

But, in agreeing with Dr. Horii, I found myself confronted with the following question: If these words are to be transformed into action...

This is closely connected with the interesting question raised by Togo Tanaka in his column "Post Script" (Jan. 13)...

Two General Views Of course, in this case, there are two main points...

The former conception is being cherished by the reactionary elements of this country...

The advocates of this conception would even deprive the nisei of the American citizenship...

Against Race Prejudice The other conception of Americanism is being cherished by the progressive people...

Representative Paul Kvale, a Farmer-Laborite from Minnesota, introduced a bill...

Seattle voters next month will consider the plan to rehabilitate the street railway system...

The program calls for a bond issue of \$12,500,000. Of this, only \$12,000,000 will be issued at present...

The program for complete rehabilitation calls for the purchase of trackless trolleys and motor buses...

Thirty thousand pieces of property have been confiscated for taxes since January 1, in King, Snohomish and Whatcom counties...

Two topics of local interest were brought before the meeting Thursday night at Collins of the Seattle chapter of the Japanese American Citizens League...

The league members discussed the candidates in the forthcoming city council election...

Interest was developed in the primary race. A large crowd of members were present, and the discussion brought out many inquiries concerning the twenty men who seek to be nominated...

The delegation sent a letter to Harry L. Hopkins, Works Progress Administrator...

The request called for an increase in the state's quota from 32,500 to 40,000 persons...

There was some contest between the two houses over certain features regarding the administration of the fund...

Northwest Board Will Gather Here Coming Saturday

The annual meeting of the Northwest District Council Board of the JAEL will be held next Saturday, February 20...

The general business of the organization will be discussed, but the item of principal interest is the northwest district convention...

The entire day Monday will be given over to business. The board also will consider the major problems of the organization...

Tentative Northwest chapter quotas have been set. Following the board meeting, the members will be guests at the installation dinner dance of the Seattle chapter...

Relief Bill Passes The \$950,000,000 relief and deficiency appropriation bill passed both houses of Congress last week...

There was some contest between the two houses over certain features regarding the administration of the fund...

WORKERS PLAN TO COOPERATE WITH RED CROSS

Swinging into line behind the great humanitarian drive to bring relief to the sufferers of the disastrous flood in the middle west, chapters of the Japanese American Citizens League are bending every effort...

The movement is coast-wide, according to reports. Chapters all along the coast are doing their utmost in this campaign...

Reports indicate that the co-operation in the campaign were voluntary. National officials heartily endorse the relief drive being carried out...

Officials Take Charge The drive has not reached its height, owing to the fact that elections were held in chapters during the latter part of January and in early February...

Meanwhile, however, the chapters are receiving personal contributions from charitably-inclined persons. In all instances, however, it was understood that a special flood relief committee would be named and would take official charge...

Following are the contributions thus far reported: CALIFORNIA—Eden Township, Los Angeles, Orange County, San Francisco, over \$100; Sonoma County, \$107.31; Arizona, \$81.50; Washington—Seattle, White River valley, Yakima...

37 PCT. IN HAWAII ARE U.S. JAPANESE

Total of 108,355 American Citizens Are Found; Trend Discovered To Be Toward Modern Ideals

NO RACIAL GROUP IS IN MAJORITY

By Samuel W. King (Delegate to Congress from the Territory of Hawaii)

There is today a total of 108,355 American citizens of Japanese ancestry in Hawaii, being 37 per cent of the entire citizenry...

The first generation native born show the same reaction to American conditions of living, with its higher standards, that every other immigrant people has shown...

The obvious everyday evidence in schools, sports, clothing, civic and social organizations, and political affairs show beyond any reasonable doubt that these new citizens are accepting Americanization gratefully...

The only new racial group that has entered Hawaii in any large numbers since annexation are the Filipinos; and after all, they have been, and perhaps still are, until the final separation of the Philippine Islands from the United States...

The remaining 13,783 are, except for the few honorably discharged service men, a very young native-born group, whose potentialities or whose choice of citizenship is still conjectural...

The people of Hawaii are then over 75 percent American citizens, principally by nativity. The less than 25 percent aliens are not being replaced by any immigration. Practically a half of our citizenry are Hawaiians, Anglo-Saxons, and Latins...

No racial group is in the majority. No possible combination, un-American in background, could control locally. Can anyone find in these conditions any menace to nationalism? Have not many parts of the mainland even smaller proportions of native-born citizens? Does any other part of the national mainland do much to weld together all its people in common loyalty to the ideals and institutions of our American democracy as Hawaii?

Is it pertinent, with any one of America's constituent peoples, to go back to the simple fact that American citizenship by birth, to tag the children with the heritage of immigrant parents? Has not our experience over the years shown on the whole the falsity of such an attitude?

In closing, let me in all sincerity assure the American people that Hawaii, whatever its racial make-up, is soundly American and wholeheartedly loyal to the United States.

RISE OF JAPAN'S INDUSTRY SHOWN BY SPEAKER IN PUBLIC FORUM TALK

Evolution of Manufacture from Feudal Days Presents Interesting Picture; Old Is Kept; Machine Goods Enter World's Markets

FIGHT FOR MATERIALS AND MARKETS GOES ON

JAPAN WILL KEEP TO BEATEN PATHS

Opposition to Fascism and Radicals Is Voiced As Cabinet Policy

TOKIO—A broad general policy to be followed by the cabinet of Premier Senjuro Hayashi was announced early this week, with the approval of the Emperor...

In general the program aims to adhere to the time-tried practices of the Empire, and it is made clear that fascism will have no tolerance...

It was said that the government believed it was necessary at this time to make a public statement in order to clear the atmosphere and let the world know exactly what to expect from Premier Hayashi...

The Emperor and the worship of the national deities will continue. Modern so-called radical ideas will have no consideration. Other points of a specific nature are:

Stabilization of national life. The national defense will be buttressed, and the development of industry and commerce will receive earnest consideration...

The Premier indicates the administration will be conducted with the keenest regard for the letter and spirit of the Constitution...

The national policy will be thoroughly clarified. Due to serious ill health, Lieut. Gen. Kotaro Nakamura, war minister has resigned...

Premier Hayashi and his cabinet, after considering the budget figures, decided on a reduction of 8 1/2 percent from the original amount of \$855,000,000 to \$781,000,000. Reports of higher cost of living were said to have influenced the decision...

Registration Open for Adult Classes

Registration is now open at the Pacific School, 12th and Jefferson, and at the Jewish Educational Center, 18th and Jackson, for all adults interested in violin classes, glee club or orchestra work...

They will be taught by Eric Friedland, experienced violin teacher and orchestra and glee club leader.

Figures compiled by the association indicate the seriousness of the present situation. Lettuce straight-car shipments fell from 1,426 cars in 1934 to 559 cars in 1936...

By slow freight Washington lettuce arrives in such poor condition as to be virtually unsaleable during much of the average season. By express, four days faster, it arrives in good condition but at a cost nearly two and one-half times as great as by freight, and hence at an unavoidable loss to all concerned...

The association, in an extended brief, with full proof of the situation attached, last week presented the case to the railroads and the Railway Express Agency, and now urges a prompt and favorable reply.

### JAPAN STUDENTS KNOW U.S., AVERS MISS SANNOMIYA

#### Collegian in Nippon Seeks Western Ideas; Co-eds Have Hard Time

#### JOB DIFFICULTY NOTED

By BILL HOSOKAWA  
In a land four thousand miles across the Pacific, where the government education system was started little more than fifty years ago, college students as a group know more, and are eager to learn still more about the United States than the average collegian that graces the American campus.

Authority for this statement is Miss Miya Sannomiya, American-born Japanese graduate of the University of California, who visited Seattle last week in the interest of the Society for International Cultural Relations of Tokyo.

Co-education a Luxury  
Co-education in Japan is still a luxury of the future, and all students wear uniforms similar to ROTC suits, but a serious-minded Nipponese "Joe College" can quote Emerson, discuss philosophy, and speak with authority on technical points of English more fluently than his American counterpart, Miss Sannomiya believes.

Throughout Japan Miss Sannomiya observed a hungry reaching for knowledge in things western. American books of all types are read avidly as English is a required subject in the high school curricula.

"The Japanese student knows so much more about America, he can come 80 percent of the way to meet us," she declared in speaking of international understanding.

Set Goal Early  
Because of the large number of students eager to enter college, entrance examinations are unbelievably stiff in comparison to American standards, Miss Sannomiya said. Students in primary grades set entry to a university as a goal, and drive toward the realization of that ambition and the goaded on by competition and the urgings of parents and teachers.

Careers are often determined by the university a Japanese student can enter. The rigors an American graduate met during the worst depression years are nothing compared to the struggle a Japanese graduate faces in searching for employment.

Jobs Are Scarce  
A graduate of the Tokyo Imperial university, the best in the Orient, has a fair chance of finding a position, Miss Sannomiya explained. But only one or two out of every hundred with graduating from colleges with lower standards find jobs for which they studied.

"Doshisha university is the only one in Japan having co-education, and then men and women are confined to different ends of the campus," she revealed. "Women auditors have been allowed in other universities, but so far they have not participated in student activities."

Traditions Dying  
Miss Sannomiya believes men and women will be studying together soon, for gradually aged-old traditions which relegated women to the home are being broken down. Mixed groups are to be seen on picnics and ski trips now, she said.

Skiing is more advanced in Japan than in the United States, for almost everyone in Japan's cities, even stenographers and shop girls, find time to ski, she revealed.

### KABUKI PROGRAM TO BE PRESENTED

#### COMING WEEK-END

Mr. and Mrs. Nakamura Will Direct; Sponsor To Be Geijitsu Kyokai

#### INTEREST IS GROWING

What promises to be a treat for local Japanese theatre-goers will be the presentation of well-known Kabuki acts at the Nippon Kan next Saturday and Sunday evenings, starting at 7 p.m.

Talented artists drafted from the women of the community will be presented in feature roles, together with well-known male Kabuki actors here. The two-night drama presentations are the first to be held here in many years, and will be under the auspices of the Geijitsu Kyokai, a Japanese dramatics society.

The acts are to be under the co-directionship of Mrs. Kameo Nakamura and her husband, past her professional name of Onoyo Tamiji, and is regarded as one of the leading Kabuki actresses in the country.

Her husband is also well-known in the theatrical circles as Kameo Niseidayu. He is known as the only second generation Gidayu artist.

Revival Underway  
The presentations are expected to bring back the popularity of Kabuki which within the past decade has been on the decline. This is attributed to the lack of artists among the older generation who delight most in these dramas of old Japan.

Lately, however, a revival of interest was begun by Mr. and Mrs. Nakamura through the presentation of Kabuki classics performed by second generation girls of the community. Their performances have been popularly received, with the result interest is being shown for Kabuki presentations by the older generation.

Some of the Plays  
Among some of the more well-known of the Kabuki shows to be presented next week-end are the following:  
IMOSEYAMA, in two acts, with scenes from Takesu and Fukahichi Joshi.

YOSHITSUNE SENBONZAKURA, in two acts from Shinomi Hiro and Sushiya.  
KAGAMIYAMA, in two acts, with four scenes from Shinaiuchi to Nagatsubone.

GMPEI NUNOBIKI-NO-TAKI, scene from Kozakurazeme.  
The program is to be further augmented by dramatic sketches and colorful Japanese dance numbers between curtains.

Admission will be: adults, 50 cents, children, 35 cents.
