Educational Survey Conducted by Night School

The adult education night school is conducting an educational survey this week to assist in planning the night school program for the second term, declared Harold R. Bottroll, director. This survey will serve to determine the nature of the program that will be offered starting Jan. 28. Each family unit is urged to fill out the blanks in the questionnaire attached to this bulletin. This questionnaire should be returned to the respective block administrative officers by Tuesday, Jan. 12.

The night school enrollees have also been asked to fill out the questionnaires and their answers will give the night school director the students' viewpoints regarding the scope of the second term program.

Japanese Language Books Sought

Two sets of Japanese language books are urgently needed by the students of the Japanese language class which is preparing nisei men for the military intelligence service, declared Harold R. Bottroll, night school director.

The text books needed are "Elementary Japanese for University Students" and "Selective Japanese for University Students" compiled by Serge Elisseeff and Edwin O. Reischauer. Each set is composed of two books, a text book and an explanatory "ji-bi-ki".

Any resident who has copies of these books is asked to bring them to the night school director's office or to Kiyoshi Fujimara at 27-12-E.

Laundry Service Offered Residents Here

Arrangements have been completed with the Billings Laundry company to furnish laundry service to the Heart Mountain residents, Scott Taggart, acting director of community enterprises, announced. In the meantime, the fullest possible cooperation of the residents is requested.

Here's How to Make Service Calls to Plumbers

Requests for service calls to plumbers should include address, number of repairs, kind of trouble and name and address of the person reporting, Rex Stanton, head of plumbing department stated. Example: 8-28 men's lavatory, 1 toilet overflowing, 2 shower drains stopped, 8-29 laundry, 3 faucets dripping, John Doe, 8-2-A. Orders without signatures will be ignored, he said.

Stanton also reported that from time to time short pieces of odd-sized pipes have been taken from near the plumbers headquarters where they were left owing to lack of storage space. Scarcity of metals has made it necessary to conserve the smaller and seemingly unimportant pieces, he said and cited cases where repair work has been held up by lack of certain pieces which could not be found at the time.

Now Dry Goods Store Hours Announced
