

New Plan Announced by Health Department

Due to the fact that two members of the medical staff have recently left the center with two more expected to leave in the very near future and also due to the fact that 50 to 70 house calls daily have been requested, the following plan has been adopted by the health department so that the remaining physicians will be enabled to give the necessary medical care and at the same time conserve their own health:

The physicians on duty and their assistants will remain in the hospital available at all times, Dr. C. E. Irwin, chief medical officer, announced. Where the services of a physician are needed, an ambulance will be sent to bring that patient to the emergency room in the hospital. This is only in cases where the patient is unable to walk.

Clinic hours in the out-patient department at both special and general clinics remain unchanged. It is emphasized that emergency cases and other calls will be taken to the emergency room in the surgical wing where they will be provided necessary attention by the physician on duty.

The following information will be requested from each individual who calls for medical service:

- | | |
|------------------------------------|---|
| 1. Full name | 5. USES number |
| 2. Age | 7. Trouble or complaint |
| 3. Birthday, if under 15 years old | 8. Duration or length of trouble |
| 4. Sex | 9. Has patient been seen by a doctor at this center before? |
| 5. Address | 10. Is patient able to walk to clinic? |

The following is the time schedule of the clinic (not to be confused with emergency and special calls):

Monday.....	10:00-11:00	Eye, ear, nose, throat; heart and chest
	1:00- 4:00	General
