

### Watermelon Crop Destroyed by Vandals

Last week-end Heart Mountain vandals destroyed much of expected watermelon crop in our agriculture field. Many large melons which were nearly ripe were cut open and left lay. Perhaps the persons cutting these melons did not realize the seriousness of what they were doing but, if this vandalism is to be continued on other melon crops, there will be no melons for the residents of Heart Mountain.

The internal security section is cooperating with the agriculture section in trying to prevent such vandalism and any other assistance will be appreciated because we wish to harvest these melons and other crops so that all may receive and enjoy the products of our labor.
