Hostel Reservations Taken at Relocation Office

Reservations for hostel accommodations in various cities should be made through Martin Furumoto, hostel representative with offices in the relocation division, according to Claud C. Gilmore, acting relocation program officer.

Hostels are maintained by various church denominations, such as the American Friends and the Baptists. The aim of the hostels is to provide temporary housing for families and individuals seeking resettlement in the area. The hostels are being used to great advantage by resettlers and are performing a service to them that would not otherwise be available in a strange community.

For further information regarding hostel accommodations and reservations, see Furumoto or one of the assistant relocation advisors in the relocation division.
