Miss Polly Wilson
3039 Boulder St.
Los Angeles, Calif.

July 27, 1942

Dear Mally,

Gee, but it seems so long since I heard from you last and that was when school was still going on. What are you taking at summer school? You certainly are ambitious! And to think you are also working. Boy, some work you're doing. You'll be rich before you know it. By the way, I'm also working too. On the school project. I suppose you have already heard about our wages. Well, I work a half a day so I'll either get 6 or 8 dollars a month. What a difference with your \$10 a week. After all we're being fed, clothed and boarded for nothing so you can't expect much.

Fourth of July came and went with nothing cooking and ever since everything chili excepting the weather which is hot as ever. For a while after the rain storm we had it was a little cooler. Boy, it sure was exciting

2401 98 July 27 1942

to have a rain storm. And it sure
did a lot of damage. Blowing roof
tops off. I almost forgot how rain
looked. We often see lightning but
it rarely turns to thunder. How has
weather conditions been in L. A.?
Is that a military secret?

As I said before very thing is
chili, well I don't know of any-
thing else to write about so I'll
close with regards to all from
all. Don't work too hard and
hope you have a swell vacation.

Love,
Mary
