

H. G. C.
Boston Arizona
Sept. 9, 1942

Dear Mrs. Whitney,

I shan't attempt to write a very long letter to report as we got our inoculation (Typhoid shots) to day, and the after effects are quite disturbing. We've all had fever, numb arms & dizzy spells since this morning, but I suppose we'll recover.

Luckily, dad did not have to take his as he is over 50. We are to have two more - one next Wednesday, & the last the following Wednesday. I wish it were over with.

How is every one in Upland? Yes, I do believe some of our letters go astray as several times people have written and have asked why I do not write - and to begin with, I never received their letters. Up until your last letter, I thought George was still at home, as you did

Not mention - in any of the
letters I received, that he
had left. Please give him
our best wishes.

227

As to the rest of the questions
you asked, I will answer them
in the next letter - if you
don't mind. However,

I know Alma will be happy
to hear from you so I'll
give you her address. -

District 2 - Barrack 46

Apt 15 - Ave 6

Santa Anita Assembly Center,
Arcadia, California.

My regards to Mr. Whitney -
Braddo & Gray.

With love,
Juneko
