PACEMAKER BUILDING -- Phone: 63

With the coming of summer, problems confronting the staff have multiplied. Cerebration ceases, we find out the hard way, when the seat of our pants sticks to the seat of the chair.

But what gets us is not the seat, it's the stupidity.

Polychrome

Readers who were startled to see the PACEMAKER in its pink dress last issue (and this) are assured that it was through no choice of the editorial staff. Priorities on chlorine, essential for bleaching paper, make it impossible to obtain white paper.

We were not blushing.

Gallop, gallop

The Tulare News is sponsoring a drive in all centers for the use of wooden clogs to conserve rubber soles and heels. While the idea is commendable, we hesitate asking our leg-man, for example, to walk from the office down to the print shop and back wearing these one-deck sabots.

Besides sounding like the Pony Express, service by our leg-man will, no doubt, be as leisurely.

Fearless journalism

The Tanforan Totalizer brings the following to our attention: It seems that in the recent council election at Tulare, their news devoted two whole columns to the sole woman candidate in the race. The result. She received the fewest votes in her precinct.

On the other hand, 'Down in Santa Anita, four women won the elections--without benefit of plugs from the center's PACEMAKER.'

As the Tote implies, there's a moral there--something about the power of the press.

See the birdie

And the full-page spread of photos in the L.A. Herald Express with everyone looking photogenic (except one) has led someone to remark that we should pull the eye-shade farther down the next time our picture is taken--preferably over our face.

Editorial

'Victory Volunteers' Are Loyal

The two hundred farm workers who signed up and left the Santa Anita Assembly center last month for the Idaho sugar beet fields were among the group commended recently as having helped save almost all of Idaho's \$16,000,000 sugar beet crop.

J. G. Beeson, farm placement supervisor in Idaho for the United States Employment service, said that the efforts of the Japanese, plus mobilization of all available local white collar labor, saved the state's vital crop by getting it thinned at the proper time.

These "volunteers for victory" give the lie to those who would impugn, on a wholesale basis, the loyalty of the great mass of the Japanese in America to America.

An editorial in the San Francisco Chronicle says: "...if ranchers lose any considerable volume of crops from inability to obtain other labor and refusal to use the Japanese, the loss will not be theirs alone, but a national injury."

Loyal American Japanese will not tolerate, will not forgive any injury done to America.

Green Mess Waitresses Give Time

Thanks to 32 industrious waitresses, headed by Kiyoko Nakagawa, the Green mess hall claims to have the cleanest and shiniest cups and silverware of all Center eateries.

Saturday afternoon, in the sweltering heat, these energetic lassies rolled up their sleeves on the tin cups and silverware on their own initiative, and, more important, on their

own time.

With the help of scouring powder and lots of elbow grease, the utensils now glisten like grandpappy's bald pate.

The moral of the story, and food for thought:

When a waitress at any mess hall pours you an extra cup of java, tip her with a "thank you" and a smile. She deserves it.-- by Fred Yamamoto.
