

HOW WAR THREATENS HOLLAND: This map gives an excellent view of the plight which would be Holland's if Germany decided to "move in on her." Military leaders admit that the area (a) can be taken "within three days" by mechanized troops such as Germany has. The zone (b) can be held for 10 days or two weeks while the zone (c) can be so inundated as to be impregnable against other than air attack. Belgium (d) and Luxembourg (e), while also neutral, cannot do anything to help. Switzerland (f) also fears German troop concentration on her borders.
