Report of *Miyuki Yabe*

Grade *B3*

Term Ending **JUN 22 1934**

To Parents:

We give two separate reports. The first indicates the progress made by the pupil in the formation of the essential traits of character and attitudes of mind that make for good citizenship. Upon these depend the future of democracy and the stability of government. In this training we recognize that the school shares responsibility with the home. The second report indicates the progress in the regular studies.
