

Mr. George Kida,
Nyssa,
Ore.

of J. P. Dunaway
Route #1

White Salmon, Wash
Feb 23-43

Dear George:

I made a special trip down to see the banker Mr. Barton and showed him your letter, and he thinks it will be all right he has to consult an attorney about a loan to a party out of the state and will have to have security on cows truck and tractor has to have about twice the value of the loan according to law

I think it is a fine opportunity for you George Barton was said he would like to make the loan for you I will see him again Saturday and write you again then and I guess I will come

up about the last of ~~the week~~
next week with the truck and
tractor. Mrs Pyatt called me
up tonight and said she had a
letter from Kay today and my she
is very bitter right over the
phone I dont know what she
did that for I am sure glad
Mrs Walker & Mrs Plank are not on
this line

I see in the papers they are going
to take some Japanese boys into the
army, well with your hip they
will not pass you I feel sure
of that, but you do not need to
let it go that far you can be
exempt where you are farming,
by getting Mr Dunaway to go before
the board up there with you or
I can go before the local draft
board here for you what

classification have you the board meets here at Goldendale every Tuesday are you still a little lame if you want me to do that for you, you will have to wire me if I go before the board next Tuesday. Let me know

Yours Al.

P.S. I hope you go through with that deal, and have the privilege of a renewal of the lease for another year if you want it.

If you make any thing this year they might raise your rent.

This is the chance of a life time for you, if that ground is good
