

White Salmon Wash  
Feb 25-43

Dear Kay:

~~hitch~~ I hope there is no hitch in Georges going through with his deal.

I dont think they will take him in the army once he starts to farm they are giving farm help deferment. I dont think he can pass the examination any way.

I know he cant if he works it right. if he is a little lame he cant pass Mr Dunaway could get him defered or perhaps I could go before this board here at Goldendale and get it I dont know.

Are they talking of taking George?  
if so he can see to it that he does not pass if he works it right

and you better see to it he works it. The losses in Africa have been pretty heavy of our men and if we win this war I understand we are going to keep our army over there to police the countries we conquer for 10 years so you see if one goes over there he dont need to figure on coming home again for a good long time if ever. I will see the banker again tomorrow and let you know for sure about the loan although he feels pretty sure he can do it for you this is a good chance and you want to make ever effort to make it yours,

Al.

P.S. Dont know any thing about whats going on up there only what Mrs. Pyatt said and she get awfully mixed up.
