White Salmon wa
April 13th 1943

Dearest children. This is a beautiful day & only wish you all could be with me to day. but we will have to be Patient and hope for the best. The way things look now this old war may last a long time yet. Only wish you all could get home. but guess we will have to be patient. say Ray you must not loose too much sleep you all will work yourselves to death. I am afraid the Sugar Beets will take a lot more work than the Potatoes wont they. but they may bring you more wont they too. you surley are the grittiest bunch of kids I ever seen. Surley as hard as you try to do hope you came out all right.

Say Ray Please for goodness sakes dont send me any more dresses. I have all I need. I appreciate your kindness but you need your money. Say did you get the Ten dollars I sent you last week. let me know wont you I think the dress you sent me is a dandy it fits so nice but I dont want you to make me any more make one

for yourself I won't need any more
for a long time now will you it is
too hard on you you have so much to do
all the time. I can't catch all. I hope he
got the machine down so Clyde
Nickols could fix it. Ethel said he
keeps all the Red Cross machines in
Order. he is very handy that way,
he has no phone. it will be fine if
he can take it up. hope it gets throu
OK. I feel so sorry for you all you
will work yourselves to death say
are you still living close to me
I'm away now. but don't work too
hard you all are too gritty. but all of you
take good care of your health that is
the main thing. Victoria is working
at Salem now. She gets more money
than she did in Portland.
well Vickie is about ready to go down
town now. now Kay don't work too hard
and you boys too I want to see you all
again with lots of love to you all

Grandma
