

Nov. 21-43.

Dear Georgie, Ma and Pa, reciving your
letter, a week ago and was glad to here from
you, all. And that you were all getting along
OK, but working do full hard. That seems
to be the lot, of the poor people. I dont no,
how you, or even Georgie, and his dad, can
hold up, night and day, it might be OK,
for a short time, but all the time, I dont
no how you do it, now, about Sadie

I havent been up there, and I really dont
no just when we can go. My car is caged
up, supposed to be for 3 weeks, but I guess
it will be longer than that. I am getting
my 2 front tires recaped. I am supposed to
get them about the first of Dec.

Then if it do I can get up the Columbia
River, Highway, we will go up, and see the
folks. And let you no how they are.
And what the trouble is.

We had a letter from Vickie, she said Sadie
was in the Hospital, and she was getting good
care. it was nice and warm there 24 hours a
day, and she had plenty of good eats. And
the nurses were good to her.

vicki said she was so poorly, which
we no she is, because when we were up
there about 5 or 6 weeks ago. She was very
poorly then, and Sissy and I were
wondering how they were going to get
through the winter. But Sadie looked better
and got better than we have saw before in a
long time. She was fatter, and looked just
fine but in her talk she would wander
away, and forget. Oh no doubt but what
Sadie is slipping, but putting her in the
Hospital, might help her. We think it is the
proper place for her. Mollie, Sissy's sister
is in the Hospital at Elmer's. has been for a
month. She fell and broke a Bone just below
the hip bone. Not a bad break, but just
enough to put it in a cast. for 6 weeks, but she
is getting along just fine.

Mrs Clark is not well. Some days, she cant
get around very well. And some days she
is just fine, and for me, I am the same old Ho.
getting up every morning at 3:15 on the job before 4 and come
home at noon. Getting stronger every day. Charles
Papers are all fine. We send our love and best regards
to you all. Let us here from you all. Geo
