George Kida,
Nyssa,
Ore.

Dear George:

I received your letter a few days ago and will answer now, Yes I believe it would be some to get some home cooking all right, but I have quite a little to arrange around here before I can get away. I received lettuce and rutabagas and I am giving the lettuce a run now, I guess your mother is a pretty good hand with the truck now to do all that hauling.

George I think if you are able to rent a place that you folks can take care of your selves without doing much hiring you will be a lot better off and make more money then you can do hauling for others on the side I think you will do better that way and you can rent a place in my name if you want to.

Yes we sold our truck and I am going to try and get a new one Martin Herdt was up to see me and wants me to get him one to. Yes I would not be suprised at you having to pay \$150 per hour next year

Your cows are not in as good condition now as they were in the fall as I am not well and not able to take care of them I wanted to sell them in Oct when they looked pretty fair, but the price dropped so could not get any thing for them I dont think they would fetch over four cents but I want to turn them in January some time the market ought to clear up by then I have enough hay to feed them till then, George do you think I could sell a couple of two bottom gang plows up there at a sale if I brought them up both 14" bottoms one is a oliver and the other a John Deere?

both pretty good plows

I am feeding the cows and looking after them my self at present,

Let me know about the plows and I may bring them up when I come up. Hope to see you all soon
Oll,
