I can not get interested in
xmas even though I don't
have to work at the store
there are too many things
to make one sad.

Betty and her family will
be up unless the weather
gets too bad.

Well I must stop and
address some cards

Love to you all.

Ethel

Dear Kay and Family:

I am sorry I have been so long
writing to you but I thought
mailed had written.

Aunt Sade had to be taken up
to Medical Lake and they took
her last Friday.

She got so they couldn't leave
her alone at all and at the
home at Bonaville they are not
equipped to care for anyone
like that. It seems awful
that she had to go but every
one tells us they really get
good care there have good
doctors and nurses.

The nurse from the hospital
here went with her she told
us that she seemed to stand
the trip alright & but was
quite tired. It is of course a

long trip.

I just can't understand about her being able to ride around in cars when has said for years she could not do it.

I do not know yet just how to address letters to her but think just "Medical Lake Hospital. Wash" would reach her.

I have quite a few Xmas cards to forward to her.

If she could only have kept her mind and stayed with us would have been much better. She made mother very nervous though even before her mind got so bad mother has been feeling

quite badly lately. Has worried too much I think.

My took her to The Dalles today to see her Dr. up there I have not seen her since & she got back to know what he said. She has lost lots of weight this winter.

Victoria will be home Saturday to stay until after Xmas I am surely glad about that I wish she could sell her house and get a heated apartment but she doesn't seem to want to. Wouldn't be happy any where else I guess.

We have been having cold weather for quite some time, but no snow yet for which I am glad
