Dear Kei - Once more Chape and I feel that we want to tell you how much you are in our thoughts, it is nearly fourteen years since we first met Jeru and yourself, and shortly after that you came into our home, and became a part of our family, we want you to know that you still hold that same place in our hearts and home. We know you worry about your family and how things are going here, it is truly wonderful how your many friends are standing by Jeru, and trying to do what they can for her, with Chape so helpless and needing my constant care, we cannot do as much for her as we would like to do, but we are so thankful that others are doing the things we want to but cannot. It is good to see how the Lord is giving her strength and courage to meet every new problem, and gives her understanding as to why these things are, and every day we pray for you, that you too might find rest and peace in Him, who is the "Prince of Peace," and some day we know you will have an opportunity to prove your loyalty to our government as you have proved it to us. This war has brought with it many changes and many problems, also much sorrow and sadness, we know our government is doing its best to solve these problems, and keeps our country the happy, free land it has

always been, I have been with Jew a few times, to see about different things, and we have always been treated with the utmost courtesy and consideration, and we feel sure all of these things will be worked out for the best good of all concerned.

Chape is about the same, he thinks and talks about you a great deal, you know he always thought so much of you, and missed you when you could not get to see him.

My teeth are bothering me a lot, I do not know what to do without my dentist, I surely dread going to someone else.

We hope you are well, for we remember you were not so good when we saw you last, The Lord bless you and keeps you,

Love, Uncle Chape and Aunt Eva.
