A sketchbook of chapter presidents

It's been more man six years since we called a halt to the series on new chapter presidents. We tried to introduce at least two chapter presidents to our readers, presenting a brief biography on them and their picture. We're ready to resume this series with the 1961 presidents - in view of the greater emphasis expected to be placed on JACLers so far as PC editorial policy is concerned.

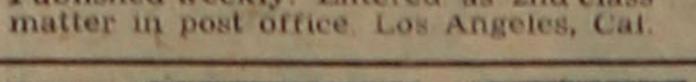

Now that every member-family will receive the PC, this Sketchbook of Chapter Presidents should prove to be an ideal feature.

chapters respond, this series would run well into the year at two per therefore, to run four per week and introduce all chapter presidents before summer starts.

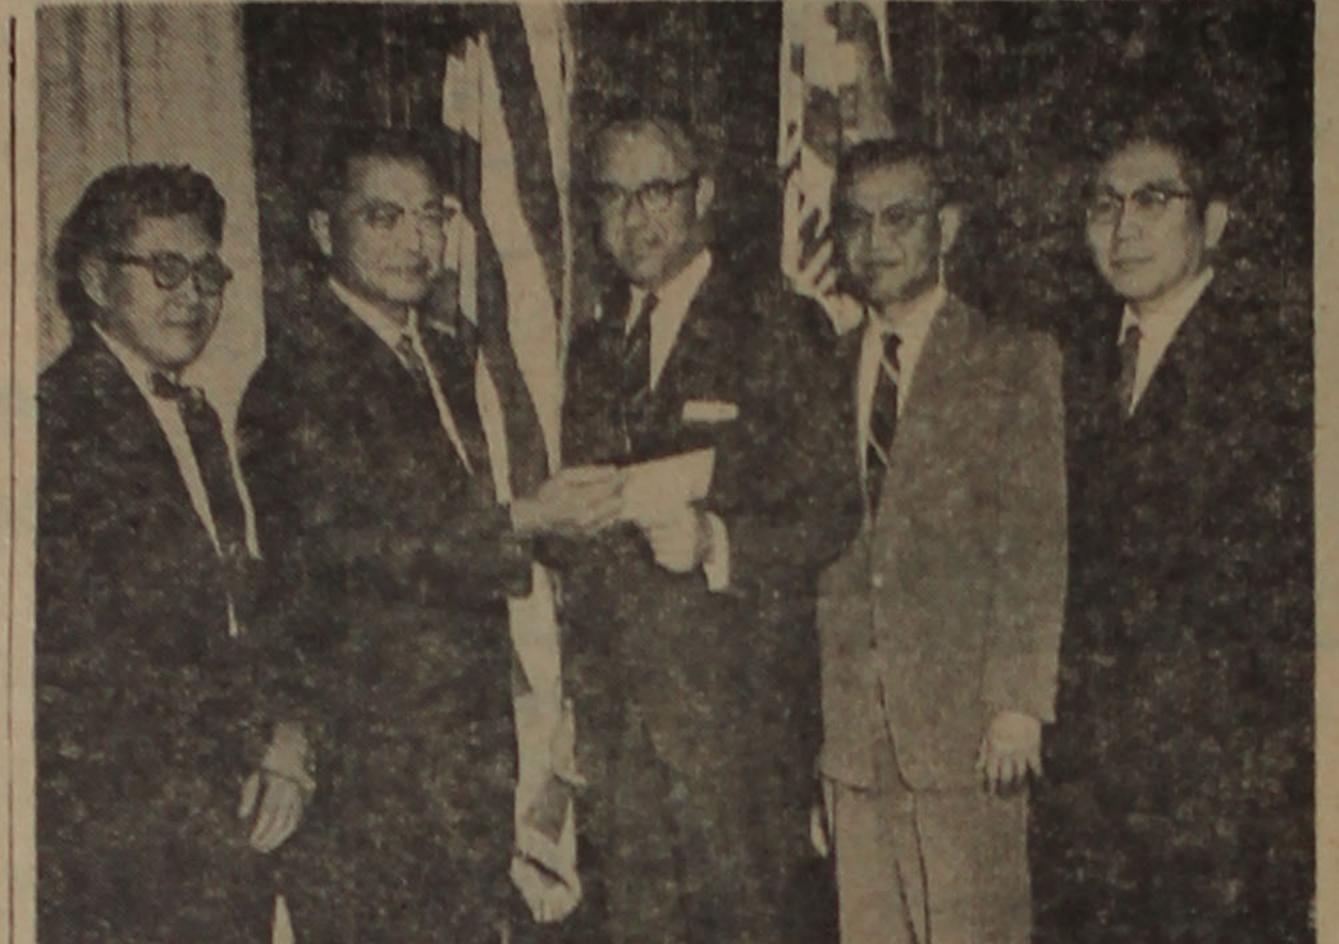

As to the length of the sketch, we don't want more than 250 words that's one page of regular lettersize stationary with louble-space typing. Information should include nometown, age, occupaion, membership in other organizations, family, special hobbies, and some of goals he wants his chapter to achieve during 1961. Photograph should be black and white, and if trict since its formation. a snapshot — as close as the camera will allow.

This series on chapter presidents should not prevent chapters from submitting photographs of chapter installation affairs.

We see many names but never a picture to associate the name. But when pictures are printed, isn't it true that it seems easier to approach the fellow JACLer the next time you meet? PC HOLIDAY ISSUE

A major contribution to the 1960 Holiday Issue is the 12,500-word novelette by Take and Allan Beekman on Hawaii's Great Japanese Strike of 1908. Perhaps, it is the longest historical article on Hawaii ever carried by a mainland publication. It tells of the publicspirited Japanese who formed the Higher Wage Assn. to achieve for Hawaii's 30,000 Japanese plantation workers equality with plantation workers of other nationalities in treatment and pay.

The movement gained support of all of Hawaii's 70,-900 Japanese residents, but it alarmed the authorities and planters. Balked at achieving their goal by peaceful means, the Japanese struck on the Oahu plantations. The authorities countered by jailing the Association leaders on charges of conspiracy. The "big four" of the Association, Yasutaro Soga, Fred Makino, Dr. Motoyuki Negoro and Yokichi Tasaka, defended by Attorney Joseph Lightfoot, made a dramatic fight to salvage their cause and escape imprisonment.

The authors consulted both English and Japanese language sources. Their sympathies seem to be squarely on the side of the Higher Wage Association leaders, whom they depict as selfless, dedicated men, fighting against overwhelming odds to secure for their followers the equality and dignity that is the essense of the American dream.

(Readers wishing an extra copy of the 1960 Holiday Issue should enclose 40 cents and we'll send it anywhere, postpaid.)

TO OUR PC READER IN AFGHANISTAN

It was a source of great surprise to find the Pacific Citizen going every week to Afghanistan. Its address to George Hiraga, the U.S. Embassy in Kabul. George was very active with Southwest L.A. JACL before he joined the foreign service. He last wrote us from The Hague.

How we came by this bit of intelligence (I never know who's moving and who's subscribing from day to day—things that keep our circulation desk busy) doesn't speak well for the people who deliver the mail. Th eother day in our bundle of papers was a copy of the PC wrapped and addressed to our buddy in Central Asia—only someone back east had noted the sender's address on the wrapper and routed that Sept. 23 PC back to Los Angeles. Our newspapers going to foreign countries are wrapped and show our return address.

One of these days, he'll be home and it would be interesting to have him tell us his experiences.

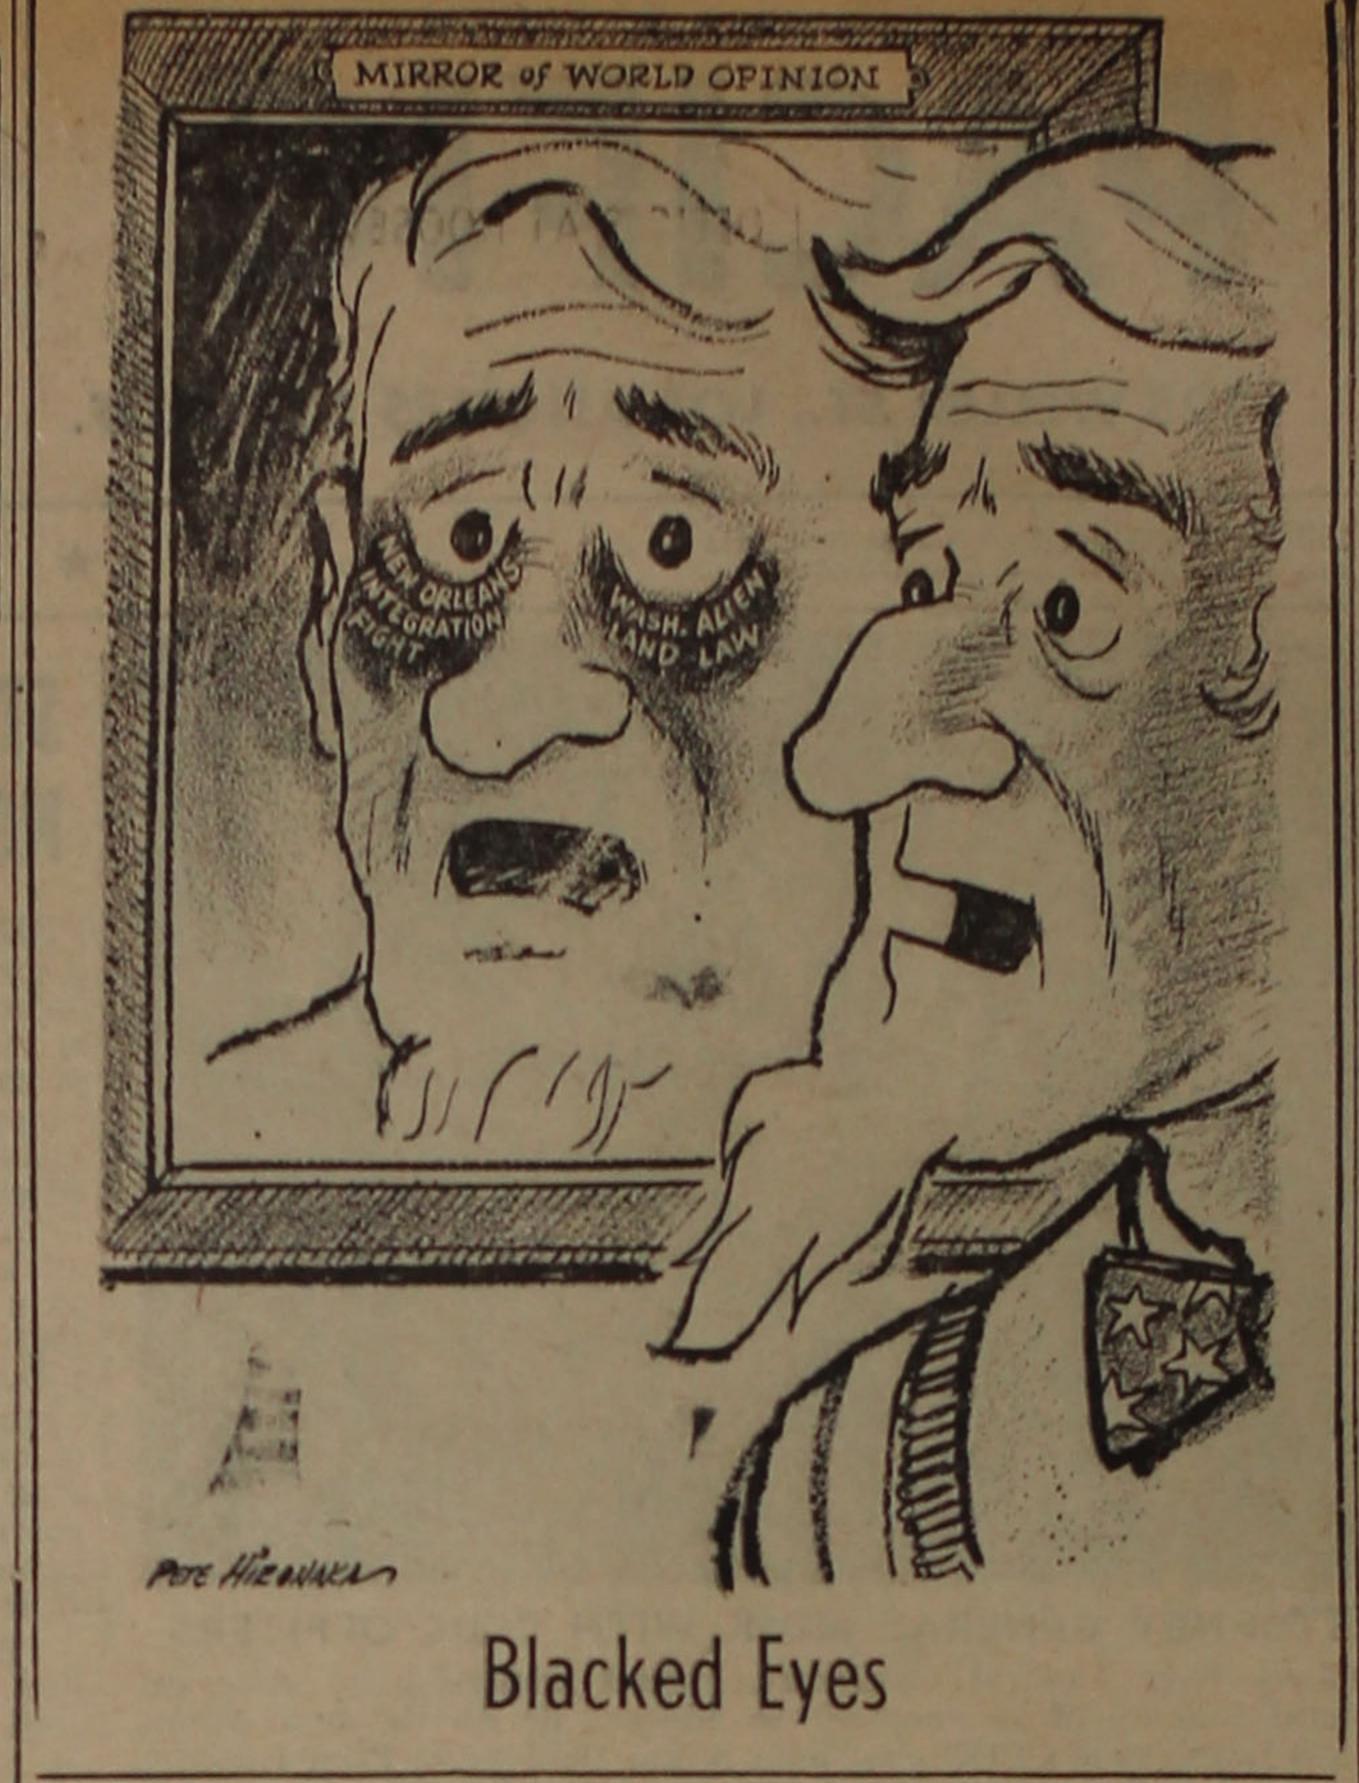

This much we've gleaned from the almanac. Afghanistan is not quite as big as Texas, mountainous and 4.000 ft. above sea level or more. A constitutional monarchy, its government accepts American aid in education and economic assistance and buys Russian military equipment. Its geography catches the Afghans in both the Soviet and Western spheres of influence and they are making the most of the situation.

Its chief industry is sheep-raising and chief export wool and skins. Their fat-tailed sheep is the principal meat diet, the fat of the tail serving as a substitute for butter.

Modern Afghanistan began with the rise of the Durani tribe in 1747, which routed the Persians and unified the various provinces. The empire flourished until the late 19th century when it succumbed to British nfluence. In 1919, the British withdrew and its first independent ruler launched a modernization program.

Afghans have been accustomed to seeing foreigners from ancient times. They were conquered by Alexander the Great, the empire builder of Macedonia three centuries B.C. They eventually freed themselves but fell to the Asian nomads from the East and the Par-

HOLIDAY RUSH-While most of you will be rust ling around finishing up your Christmas shopping most of us on the PC staff will be burning the midnight oil putting the Holiday Issue together. To date we've processed some 80 percent of what we had in ads last year with more trickling in . We urge all the chapters not to overlook sending in their chapter reports for their activities during the war to be published in this year's Holiday Edition. We might also suggest that a duplicate copy of the report be sent to our National Programs and Activities Chairman Joe Kadowaki. We will do our best to make this one of the finest Holiday Editions in the country and we hope you'll enjoy reading it.

May we take this opportunity on behalf of the staff, to thank the chapters and all the individuals who worked so hard to solicit the ads for us this year. Without their all-out effort this special edition would not have been possible.

ED YAMATO-This past Monday, we attended the funeral services for 1000 Clubber Ed Yamato, who was the proprietor of the Yamato Employment Agency. The entire Li'l Tokio community was shocked to learn that he had passed away last week from a heart attack.

Mr. Yamato was active in many organizations and youth work and has done a tremendous job in resettling the Nisei coming from Hawaii. Since opening his employment office after the war in Los Angeles, he has helped over 8,000 individuals get established here, with one-third of this amount from his home state of Hawaii. He was a member of our local JACL Hawaii Tidal Wave Fund Committee and began the ball rolling with a generous donation to the cause. It has been a wonderful experience to have known Mr. Yamato these past few years and to have had the opportunity of working with him. To the Yamato family we express our deepest condolences.

LONG BEACH INVITATION—In our position as Regional Director, we find ourselves attending many meetings during the week nights and attending chapter social events on weekends. This really doesn't give us too much time for ourselves, so occassionally we skip some of the social events, especially when invitations are not extended. When the chapters jump on our back for not attending, we usually get away by saying no invitations were received. However, this week the Long Beach-Harbor Chapter really racked us up good, when they sent us a special engraved invitation, with a note of sarcasm attached; "Please never let it be said that our chapter never sent you an engraved invitation to one of our functions!" This broke up our whole staff and it looks like this is one invitation we won't be able to renege.

The Long Beach Chapter is off to a flying start and will be holding their installation dinner at Man Jen Low in New China Town tomorrow evening to install their officers for 1961. "Please never let it be said that we have never accepted an engraved invitation!"

JAPANESE JAYCEES—Last week we were guests of the Japanese Junior Chamber of Commerce at their inaugural Ball at the Hollywood Women's Club. Heading the newly formed group as president is Tommy Katayama, with such JACLers as Jim Higashi, Fred Taomae, George Fujita and legal counsel David Yokozeki, serving on their board.

The new group is primarily composed of persons from Japan and is dedicating its program towards community service. There were over 500 persons attending the ball, with many of our JACLers in attendance. Since most of the people spoke Japanese, we were getting a charge out of some of our JACLers using Indian sign language to get their message across.

We hope that this newly formed group and the JACL can work hand in hand on projects that are simar in nature and beneficial to the entire community. Our heartiest congratulations to all the new officers and the Japanese Junior Chamber of Commerce.
