Human Relations: by Phil Hayasaka

Don't Confuse Me With Facts

"Blonde and blue-eyed" to "red-headed"

A blonde and blue-eyed woman is just like any other woman. Society's expectations of women are not based on their hair color or eye color, but on their gender. Women are expected to be nurturing, emotional, and subservient to men, regardless of their physical appearance. The idea that a woman is only as valuable as her physical attributes is a dangerous and harmful stereotype that needs to be challenged. We need to work towards a society where women are valued for their intelligence, achievements, and contributions to society, rather than their looks.

**American Indian**

I was greatly interested in Mike Gill's article on the "American Indians, Problem." It comes to me from the Indian World, the famous monthly which covers Indian affairs in the United States and other countries, and as such has a wide circulation among the American people.

I have been living in the United States for a number of years, and in that time I have learned to appreciate the great value of the American Indian. I feel that it is our duty to protect him from the wrongs that are being committed against him. I am glad to see that the government is taking a step in the right direction by adopting the Indian Reorganization Act of 1934.

**Hawaiians 'Lose' Pidgin English**

People in Hawaii don't speak English, and the substitution of a foreign language in the schools is making it harder for them to learn English. The government should take steps to prevent this. English is a necessary language for business and government affairs.

**Calendars**

For the benefit of our subscribers, we have prepared a calendar showing the events taking place throughout the month of July. The calendar is available in the office of the Pacific Citizen and will be mailed to all subscribers upon request.
