Time may also be running out for many other measures in which JACL and persons of Japanese ancestry have an interest, for it is expected that this lame duck session will consider only "must" bills of the highest priority as its members try to finish up before Christmas. The argument of many, especially those who lost in the congressional elections last month, is provide federal grants to hosthat major controversial bills should be left up to the pitals and medical schools to new Congress to consider and determine. Democratic and Republican leaders in both the grams, etc. House and the Senate have set a target date of Dec. 18 for the adjournment of this lame duck session, so there is little time left for the consideration of Title II ly doctors who have already and other relatively minor and yet controversial bills.

Actually, however, the Nixon Administration, certain lawmakers, and certain organizations like the JA-CL, which have special legislation in which they have a direct interest and concern, would like to have this Congress, and not the next, consider their bills in most instances. This is because bills not passed this session "die" with the adjournment of this Second Session and must be re-introduced next session and the legislative process started all over again from scratch for each

Raymond S. Uno, national president of the JACL who by virtue of his youth, experience and deep concern is closer to the Sansei than most Nisei, has another idea. The Sansei, he says, are much more aware of and sensitive to the subtle discriminations that exist than their parents. They feel that now is the time to strike out and eliminate all inequities. President Uno, who followed Hirasuna to the podium, enlarged on the theme by stating that the young of counter-demonstrators repeople must work within the system to achieve their ends, and the system must open its doors to them.

Under pressure from Auto-Ready, both sides in the auto Industry strike have agreed to end their dispute. The action came in order that Auto-Ready's unmatched service to car renting and leasing customers would not be interrupted. Also, Detroit auto makers wanted to be sure that Auto-Ready's customers would be supplied with 1971 models. Auto-Ready President Tad Ikemoto confirmed that 1971 cars are now available for renting. In addition, prospective lease clients are urged to order now for immediate delivery of the 1971 car of their choice. Auto-Ready's same low rates will remain in effect. Thanks to Auto-Ready's role in settling the auto strike, it is now rumored that the Nisei owned and operated firm will be asked to settle the mini/midi skirt controversy.

## Legal counsel Bob Takasugi pens first PC column

- By ROBERT M. TAKASUGI National Legal Counsel

I wish to thank Harry Honda for the invitation permitting me to author a regular column in the PC. For a myriad of reasons, a weekly deadline cannot be met. Obviously, the views expressed and to be expressed hereafter are not necessarily reflective of those of the PC. The issues, hopefully, will always be real - always sincere - always forthright. In my maiden voyage, a brief visit will be made on a few topics of current interest.-R.
