fessions, law and social work, I find most of my days either in court practicing law, or in meetings practicing social work (community organization). Politics takes several events. JACL takes several evenings during the weekday and weekends. Talking before social, civic, religious and educational groups in between keeps me fed for either breakfast, luncheon or supper meetings or banquets.

In spite of my sundry activities, I have managed to have three meals a day with my family on many, many occasions and a great deal of time with my wife. I keep telling her I don't know of too many women who get to go out and eat and meet so many people socially, politically and otherwise than she, so don't complain too loud about not getting out to do her "thing."

Her chief complaint has been with five boys, she can't keep the house clean, and, myself being a compulsive organizer and self-styled war standing". Two weeks ago I had to make a fast trip to L.A. to take care of some personal business. I haven't driven on the freeways for quite some time in the L.A. area, and I was really in a rush because so I had my wife be the navigator. Purpose of the trip was for information and public relations for Community Involvement Program (CIP). My main concern was to meet with JACLers on the district and chapter level and talk with them on

My overall conclusion is that a National CIP objective would be very difficult because of the diverterm. Perhaps, the problem of definition is based in visibili- sity of districts and the lack of man & woman power. Each district and chapter needs programming, but The drug problem as deseach area would be different because of different needs. The way I see CIP relating to National is in the resource capacity.
