When the Manzanar Committee was started, the main emphasis was the education for young people to history. We received much inquiry from our target group, but also heated criticism as well from older members of our community who said, "why are you bringing this camp thing up; it's better forgotten." However, many Sansei wanted to know about the terns, are the ones who can't camps and asked for info from the committee (because see beyond the borders of the their parents would not tell them).

This is the dilemma of the Manzanar Committee. Should we let by-gones be by-gones and believe that what the Sansei don't know won't hurt them. Who knows, example, when Sansei arrogantly say that if they were deep down the Japanese may confronted by the internment situation of the 1940s be thinking, "Itsuka wa, yatsu they would not have gone; or when Nisei whitewash the camp experience and say it was fun and games; or M.M. Questions dealing with resistance, draft refusal, pecking orders (what camp, i.e., Tule Lake), Issei-Nisei Tule Lake, role of JACL, role of land companies and riots, are some things that have not been dealt with. The Manzanar Committee feels that finding the key or keys to the camp experience will open doors that will give us a better understanding of ourselves and the nature of America.

Renew Your JACL Membership Today!

Dear JACLer:

Your membership is your contribution to assist not only the JACL, but also the Japanese American community.

The existing framework of JACL and its chapters and district councils have provided the organizational strength which has helped to solidify the activities of Japanese Americans throughout the United States. Without the coordinated effort of JACLers across this country, the impact of the Japanese American community in the legislative, social, economic and other areas would have been significantly less.

As our membership increases, so does our influence, activities and contribution to our society. We need your membership to make not only our will, but our actions heard and felt whenever and wherever the need arises.

Please help JACL continue its many activities for the benefit of not only Japanese Americans, but all Americans.
